Sector Allocation (Duration in Years)

Dividend is not guaranteed. Past distributions are not necessarily indicative of future trends, which may be lower. A positive distribution yield does not imply a positive return. Data does not include special cash dividends. Distribution payments of the Fund where applicable, may at the sole discretion of the Fund, be made out of either income and/ or capital of the Fund. In the case of the Fund and the Income II Shares, the Fund may at its discretion pay dividends out of capital and charge management fees to capital, thereby resulting in an increase in distributable income available for the payment of dividends by the Fund/Income II Shares and therefore, the Fund / Income II shares may effectively pay dividends out of capital. In the case of Income II Shares, the Fund may also charge other fees to capital and also take into account the yield differential arising from share class currency hedging (which constitutes a distribution from capital). This may result in an immediate reduction of the NAV per share for the Fund and the Income II Shares. Please refer to www.pimco.com.sg for more information on income statistics.

¹ Yields reported gross of fees, the deduction of which will reduce the yield. ² Annualised Distribution Yield is as of last month ending 28/02/2021. ⁵ Where permitted by the investment guidelines stated in the portfolios offering documents, "other" may include exposure to, convertibles, preferred, common stock, equity-related securities, and Yankee bonds. Negative allocations may result from derivative positions and unsettled trades and does not imply the fund is short cash, is levered, or that the derivatives are not fully cash backed. Duration is the sensitivity of a fixed income security to a change in interest rates. The longer the duration of a fixed income security, the higher its sensitivity to interest rates. Duration Weighted Exposure (DWE%) is the percentage weight of each sector's contribution to the overall duration of the fund. Morningstar ratings are shown for funds with 4 or 5 star ratings only. Other share classes ratings are either lower or unavailable. A rating is not a recommendation to buy, sell or hold a fund. Copyright © 2021 Morningstar Ltd. All Rights Reserved.
