2 Investment Policy and Distribution Policy

2.1 Overview of the Fund

DIF is a publicly traded infrastructure fund in Thailand that provides Unitholders with an opportunity to invest in the Telecom Infrastructure Assets. True, a public company incorporated in Thailand, is a major Unitholder of DIF holding 28.11 percent of the total number of outstanding Investment Units as of October 18, 2017. DIF may in the future acquire additional telecommunications infrastructure assets and/or acquire the right to receive revenues to be generated by additional telecommunications infrastructure assets, from True Group and other third parties. The Management Company intends to continue to manage DIF’s business with the key objective of generating recurring income to provide Unitholders with long-term distributions at a competitive rate of return.

The Management Company has caused DIF to use the proceeds from the Initial Public Offering to invest in the Telecom Infrastructure Assets, which consist primarily of (i) the ownership of 6,000 telecommunications towers and other related passive telecommunications infrastructure for

mobile telecommunications services comprising the True Tower Assets acquired from True; (ii) the ownership of a core FOC grid and related transmission equipment and an upcountry broadband system; and (iii) the right to the net revenues (including all claims, awards, judgments, suits and any other rights of BFKT and AWC arising out of or in connection with such revenues and any agreement under which such revenues would be derived (except for BFKT's and AWC's rights and claims with respect to such revenues or arising out of or in connection with such agreements which BFKT or AWC is or has been entitled to prior to the Commencement Date regardless of whether BFKT or AWC has made a claim or receives payment from such rights and claims before or after the Commencement Date)) which was generated on and from the Commencement Date until the Expiry Date from the rental of (a) certain telecommunications towers and other related passive telecommunications infrastructure comprising the BFKT Towers and AWC Towers and (b) a FOC transmission grid comprising the BFKT FOC Transmission Grid, including rights to ownership of certain assets of BFKT and AWC following the Expiry Date. The Fund has entered into the Asset and Revenue Sale and Transfer Agreements with the Transferring Entities to purchase the Telecom Infrastructure Assets.

The Management Company has further caused the Fund to use the funds borrowed under the Thai Facility Agreement to invest in the Telecom Infrastructure Assets for Additional Investment No. 1, which consist primarily of (a) the right to receive the net revenues to be generated from and including the Commencement Date for Additional Investment No. 1 until the expiry date of the Additional AWC Leasing Agreement derived from the lease of AWC Towers for Additional Investment No. 1 owned by AWC (including all claims, awards, judgments, suits ruled in favour of AWC and any other proceeding or any other right to which AWC is entitled arising out of or in connection with such revenues and any agreement under which such revenues would be derived (except for AWC's rights and claims with respect to such revenues or arising out of or in connection with such agreements which AWC is or has been entitled to prior to the Commencement Date for Additional Investment No. 1 regardless of whether AWC makes or has made a claim or receives payment from such rights and claims before or after the Commencement Date for Additional Investment No. 1)), including ownership in the AWC Towers for Additional Investment No. 1 following the expiry date of the Additional AWC Leasing Agreement to be transferred to the Fund under the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1; and (b) the long-term leasehold with a term of 20 years of the AWC FOC for Additional Investment No. 1, including the call option thereof after the expiry date of the long-term lease and subject to fulfillment of other conditions specified in the Long-Term Lease Agreement with AWC in Relation to FOC for Additional Investment No. 1.

The Management Company will further cause the Fund to use the funds borrowed under the Second Thai Facility Agreement to invest in the Telecom Infrastructure Assets for Additional Investment No. 2, which will consist primarily of (i) the right to the net revenues to be generated from and including the Commencement Date for Additional Investment No. 2 until the expiry date of the Additional AWC Leasing Agreement No. 2 derived from the lease of AWC Towers for Additional Investment No. 2 owned by AWC (including all claims, awards, judgments, suits ruled in favour of AWC and any other proceeding or any other right to which AWC is entitled arising out of or in connection with such revenues and any agreement under which such revenues would be derived (except for AWC's rights and claims with respect to such revenues or arising out of or in connection with such agreements which AWC is or has been entitled to prior to the Commencement Date for Additional Investment No. 2 regardless of whether AWC makes or has made a claim or receives payment from such rights and claims before or after the Commencement Date for Additional Investment No. 2)), including ownership in the AWC Towers for Additional Investment No. 2 following the expiry date of the Additional AWC Leasing Agreement No. 2 to be transferred to the Fund under the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 2 to be entered into between the Fund and AWC; (ii) the ownership of 350 telecommunications towers for mobile telecommunications services to be acquired from TUC, comprising the TUC Towers for

Additional Investment No. 2; (iii) ownership in FOC for provision of mobile services in provincial areas with an approximate length of 1,113 kilometers (or approximately 62,594 core kilometers) to be acquired from TUC, comprising the TUC FOC for Additional Investment No. 2; (iv) ownership in core FOC for provision of mobile and Internet services in the BMA with an approximate length of 542 kilometers (or approximately 117,147 core kilometers) to be acquired from True Move, comprising the True Move Core FOC for Additional Investment No. 2; and (v) a long-term leasehold of approximately 30 years of FOC for FTTx for the provision of Internet and broadband Internet services in the BMA with approximate length of 670 kilometers (or approximately 80,014 core kilometers) to be acquired from TICC, comprising the TICC FOC for FTTx for Additional Investment No. 2, including a call option of the FOC for FTTx upon the expiration of the term of the long-term leasehold and fulfillment of certain other conditions, with the exercise price being THB 200 million.

2.2 Investment Policy

2.2.1 The Initial Telecom Infrastructure Assets

The initial assets invested in by the Fund from the proceeds of the Initial Public Offering were the Initial Telecom Infrastructure Assets. See “Name, location, characteristics, summary related to the business operation of the Telecom Infrastructure Business, categories and details regarding the Telecom Infrastructure Assets - Summary related to the business operation of the Telecom Infrastructure Assets and the Telecom Infrastructure Assets for Additional Investment No. 2” for details of the Initial Telecom Infrastructure Assets. We have benefited from the Initial Telecom Infrastructure Assets by receiving the net revenues generated from them, in relation to the BFKT Telecom Assets and AWC Towers, or leasing them, to TUC and TICC as the anchor tenants that have also operated and managed the assets. See “Agreements Relating to the Management or Utilization of the Infrastructure Business – Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Asset and Revenue Sale and Transfer Agreements” and “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets – Master Lease, Operation and Management Agreements” for further details.

The Fund has entered into separate Asset and Revenue Sale and Transfer Agreements with TICC, True, BFKT and AWC, respectively, to acquire (i) the core FOC grid and related transmission equipment and upcountry broadband system from TICC, (ii) the True Tower Assets from True and (iii) the right to the net revenues to be generated from the rental of the BFKT Telecom Assets and the AWC Towers, including the rights to ownership of certain BFKT Telecom Assets and AWC Towers after the expiration of the HSPA Leasing Agreement. See “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Asset and Revenue Sale and Transfer Agreements” for further details.

Following the completion of the Asset and Revenue Sale and Transfer Agreements with BFKT and AWC, BFKT has continued to use and maintain the BFKT Telecom Assets and, pursuant to the AWC Leasing Agreement, the AWC Towers that AWC leases to BFKT and has provided rental and operation and maintenance services in relation to the BFKT Telecom Assets and AWC Towers, on an exclusive basis, to CAT Telecom under the HSPA Leasing Agreement. BFKT and AWC have transferred the revenues in the amounts specified in the Asset and Revenues Sales and Transfer Agreements with BFKT and AWC, net of expenses related to such assets, including costs related to land leases, property taxes, rights of way, operation and maintenance and insurance (including all

claims, awards, judgments, suits and any other rights of BFKT and AWC arising out of or in connection with such revenues and any agreement under which such revenues would be derived (except for BFKT's and AWC's rights and claims with respect to such revenues or arising out of or in connection with such agreements which BFKT or AWC is or has been entitled to prior to the Commencement Date regardless of whether BFKT or AWC makes or has made a claim or receives payment from such rights and claims before or after the Commencement Date)) which was generated on and from the Commencement Date until the Expiry Date from such rentals to us in accordance with the terms and procedures provided in the Asset and Revenue Sale and Transfer Agreements with BFKT and AWC. The Fund is not entitled to any revenues generated from the operation and maintenance services performed by BFKT under the HSPA Leasing Agreement in connection with the BFKT Telecom Assets and AWC Towers. Nor is the Fund entitled to any revenues generated from the rental of the active telecommunications infrastructure, including Node Bs, used to provide CAT Telecom's 3G+ 850 MHz services, with the exception of transmission equipment. See "Agreements Relating to the Management or Utilization of the Infrastructure -- Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Asset and Revenue Sale and Transfer Agreements - Asset and Revenue Sale and Transfer Agreement between BFKT and the Fund and Asset and Revenue Sale and Transfer Agreement dated December 24, 2013 between AWC and the Fund" for further details of the arrangement between the Fund, BFKT, AWC and CAT Telecom.

Under the Asset and Revenue Sale and Transfer Agreement with BFKT, BFKT has granted us a call option to purchase 1,435 of the BFKT Towers and the BFKT FOC Transmission Grid for THB10 million, exercisable upon the expiration of the HSPA Leasing Agreement, currently scheduled for August 3, 2025 but subject to an optional extension of at least five years. See "Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Asset and Revenue Sale and Transfer Agreements -- Asset and Revenue Sale and Transfer Agreement dated December 24, 2013 between BFKT and the Fund" for further details on the call option and BFKT's undertakings in our favor. We intend to exercise the call option and purchase the BFKT Telecom Assets if the option becomes exercisable, after which BFKT will transfer such assets to us and the revenue transfer arrangement in relation to the BFKT Telecom Assets will terminate. Following the transfer of ownership, the Fund will be responsible for all actual costs and expenses related to such assets. The call option will not include approximately 50 of the remaining BFKT Towers (as specified in the Asset and Revenue Sale and Transfer Agreement), whose legal title may be difficult to ascertain or may be subject to certain restrictions and which will not be transferred to us following our exercise of the call option but will continue to be subject to revenue transfer between us and BFKT for ten years after the expiry of the HSPA Agreements. In addition, the Asset and Revenue Sale and Transfer Agreement with BFKT provides for the parties to sell and purchase such BFKT Towers at a reference price based on a valuation provided by an independent appraiser jointly appointed by the parties. Because the call option to purchase the BFKT Telecom Assets is contingent upon the occurrence of certain events that may not occur, we can provide no assurances that we will be presented with the opportunity to exercise the call option to purchase such assets. See "Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Asset and Revenue Sale and Transfer Agreements - Asset and Revenue Sale and Transfer Agreement dated December 24, 2013 between BFKT and the Fund" for further details. The Fund's future exercise of the call option to purchase, or, following the expiry of the HSPA Leasing Agreement, any purchase of certain BFKT Towers at a reference price based on a

valuation provided by an independent appraiser jointly appointed by the parties, or the Fund's right to continue to receive revenues generated from the rental of the remaining BFKT Telecom Assets will not constitute the acquisition or disposition of infrastructure assets by the Fund and thus will not be subject to the requirements and proceedings regarding the acquisition or disposition of infrastructure assets, including, but not limited to, requirements and procedures in relation to approval from Unitholders or the Fund Supervisor, related party transactions and the valuation of infrastructure assets.

Upon the expiration of the AWC Leasing Agreement, currently scheduled for August 3, 2025 but subject to an optional five-year extension period, AWC will be obligated to transfer ownership of a minimum of 3,968 of the AWC Towers to us in accordance with the terms of the Asset and Revenue Sale and Transfer Agreement with AWC, after which the revenue transfer arrangement in relation to the AWC Towers will terminate. The remaining 392 AWC Towers (as specified in the Asset and Revenue Sale and Transfer Agreement), whose legal title may be difficult to ascertain or may be subject to certain restrictions, will not be transferred to us following the expiry of the AWC Leasing Agreement and will continue to be subject to revenue transfer between us and AWC for ten years. In addition, the Asset and Revenue Sale and Transfer Agreement with AWC provides for the parties to sell and purchase such AWC Towers at a price based on a valuation provided by an independent appraiser jointly appointed by the parties. See "Agreements Relating to the Management or Utilization of the Infrastructure - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Asset and Revenue Sale and Transfer Agreements - Asset and Revenue Sale and Transfer Agreement between AWC and the Fund" for further details. Because the obligation to transfer any AWC Towers is contingent upon the occurrence of certain events that may not occur, we can provide no assurances that AWC will transfer such towers to us. The future transfer to us of a minimum of 3,968 of the AWC Towers, or, following the expiry of the AWC Leasing Agreement, our right to continue to receive revenues generated from the rental of the remaining 392 AWC Towers pursuant to the Asset and Revenue Sale and Transfer Agreement with AWC, or any purchase of certain AWC Towers at a reference price based on valuation provided by an independent appraiser jointly appointed by the parties will not constitute the acquisition or disposition of infrastructure assets by the Fund and thus will not be subject to the requirements and proceedings regarding the acquisition or disposition of infrastructure assets, including, but not limited to, requirements and procedures in relation to approval from Unitholders or the Fund Supervisor, related party transactions and the valuation of infrastructure assets.

The letter of support that TUC provided to BFKT has become effective. The letter of support is not legally binding and is not a guarantee by TUC. See "Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Letter of Support dated December 24, 2013 by TUC to BFKT" for further details.

BKFT has also granted CAT Telecom certain call options to purchase approximately 667 of the BFKT Towers and BFKT FOC Transmission Grid that BFKT intends to sell the rights to the net revenues generated from to the Fund pursuant to the Asset and Revenue Sale and Transfer Agreement with BFKT.

Under the Asset and Revenue Sale and Transfer Agreement with BFKT, if CAT Telecom exercises its call options to purchase certain of the BFKT Telecom Assets which are newly built, BFKT will continue to deliver net revenues generated from such assets to the Fund in the amount as agreed under the Asset and Revenue Sale and Transfer Agreement with BFKT until the expiry or termination of such agreement and undertake to replace, prior to the expiration of the HSPA Leasing Agreement,

any assets purchased by CAT Telecom, failing which BFKT will pay us the terminal value of such assets. See “Agreements Relating to the Management or Utilization of the Infrastructure - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Asset and Revenue Sale and Transfer Agreements - Asset and Revenue Sale and Transfer Agreement between BFKT and the Fund dated December 24, 2013” for further details. BFKT may use any payments received from CAT Telecom in connection with its exercise of the call options to continue to meet BFKT’s obligations to us under the Asset and Revenue Sale and Transfer Agreement, including our rights to the net revenues or the terminal value of such assets.

The Initial Telecom Infrastructure Assets also include certain telecommunications infrastructure acquired from TICC, including (i) its core FOC grid made up of 5,112 km FOC and related transmission equipment, and (ii) an upcountry broadband system with a capacity of approximately 1.2 million ports for consumer broadband, both located in the upcountry regions of Thailand. The Fund is responsible for right of way costs and insurance expenses, while TICC, as the anchor tenant under the relevant Master Lease, Operation and Management Agreement, is responsible for expenses in relation to the operation and maintenance of the core FOC grid and upcountry broadband system. See “Name, location, characteristics, summary related to the business operation of the Telecom Infrastructure Business, categories and details regarding the Telecom Infrastructure Assets and Telecom Infrastructure Assets for Additional Investment No. 2 - Summary related to the business operation of the Telecom Infrastructure Assets and Infrastructure Assets for Additional Investment No. 2 - Fiber Optic Cable and Upcountry Broadband System Businesses” and “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Asset and Revenue Sale and Transfer Agreements - Asset and Revenue Sale and Transfer Agreement between TICC and the Fund” for further details.

Under the Asset and Revenue Sale and Transfer Agreement, we acquired from True the True Tower Assets. For costs and expenses related to the True Tower Assets, the Fund bears the costs of land lease payments for the True Tower Assets as advance rents paid by TUC for the True Tower Assets were net of such land lease payments, which are the responsibility of TUC. In addition, the Fund bears the costs of and is responsible for insurance payments on the True Tower Assets. TUC, as the anchor tenant under the relevant Master Lease, Operation and Management Agreement, is responsible for expenses in relation to the operation and maintenance of the True Tower Assets and related sites. See “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Asset and Revenue Sale and Transfer Agreements - Asset and Revenue Sale and Transfer Agreement between TUC and the Fund” and “- Related Party Transactions and Disclosure Requirements” for further details.

If the tenants of any Initial Telecom Infrastructure Assets become unable to access, operate and/or use such assets due to issues with the leaseholds, right to use or access for the underlying land or property where such assets (the “Affected Assets”) are located within five years from the assignment or novation of the leaseholds to the Fund, under the Asset and Revenue Sale and Transfer Agreements, any such Transferring Entities will undertake to relocate or replace at their own cost the Affected Assets that such Transferring Entity sold to the Fund. If such Transferring Entity does not relocate or replace the Affected Assets within an agreed period, it will be obligated to repay to the Fund the purchase price (or terminal value, as applicable) paid by the Fund to the relevant Transferring Entity for the Affected Assets on the Investment Date, plus interest at the rate of 7.5

percent per annum from the Investment Date (or asset transfer date, as applicable), less rental payments received by us from the anchor tenants for the leasing, operation and management of such assets, plus interest at the rate of 7.5 percent per annum from the date on which the relevant rental payments were received by us. See “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Asset and Revenue Sale and Transfer Agreements” for further details. Such relocation, replacement and/or repayment of the purchase price (or terminal value, as applicable) by a Transferring Entity would not constitute the acquisition or disposition of infrastructure assets by the Fund and thus would not be subject to the requirements and proceedings regarding the acquisition or disposition of infrastructure assets, including, but not limited to, requirements and procedures in relation to approval from Unitholders or the Fund Supervisor, related party transactions and the valuation of infrastructure assets.

The initial assets do not include certain upgrades of the Initial Telecom Infrastructure Assets undertaken by our anchor tenants and, in respect of the BFKT Telecom Assets and AWC Towers, BFKT or AWC to increase the capacity of such assets, such as by upgrading transmission equipment, except for enhancements to the structural strength of towers. Under the Asset and Revenue Sale and Transfer Agreements, the Transferring Entities have granted us a right to receive a first offer to purchase additional assets from any True Group entity, including such upgrades and/or the revenues to be generated by such incremental upgrades of the Initial Telecom Infrastructure Assets if it determines to sell such assets or revenues generated by such additional assets to third parties. See “- Investment Policy - Core Investment - Additional Assets” for further details. Similarly, under the Asset and Revenue Sale and Transfer Agreements, the Fund has granted the Transferring Entities a right of first offer to purchase any of the Initial Telecom Infrastructure Assets or other assets we may purchase from True Group if we determine to sell or otherwise dispose of such assets.

The Fund has entered into a Master Services Agreement with Telecom Asset Management Company Limited, as the Telecom Asset Manager, whereby the Telecom Asset Manager has provided us with certain administrative and marketing services. The Telecom Asset Manager is also responsible for seeking third-party co-location tenants to lease additional capacity on the Telecom Infrastructure Assets, and we benefit from such additional lease revenue, less additional compensation due to the Telecom Asset Manager. See “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Master Services Agreement” for further details.

Under the Master Lease, Operation and Management Agreements, the anchor tenants and, in respect of the BFKT Telecom Assets and AWC Towers, BFKT, is responsible for operating and maintaining the Initial Telecom Infrastructure Assets, as well as expenses relating to the operation and maintenance of such assets. BFKT has continued operating and maintaining the BFKT Telecom Assets and AWC Towers under the HSPA Leasing Agreement and the AWC Leasing Agreement, respectively, which we believe that the Initial Telecom Infrastructure Assets are properly operated and maintained. See “Name, location, characteristics, summary related to the business operation of the Telecom Infrastructure Business, categories and details regarding the Telecom Infrastructure Assets and Telecom Infrastructure Assets for Additional Investment No. 2 - Summary related to the business operation of the Telecom Infrastructure Assets and Telecom Infrastructure Assets for Additional Investment No. 2 - Tower Business - Operations and Maintenance”, “Name, location, characteristics, summary related to the business operation of the Telecom Infrastructure Business, categories and details regarding the Telecom Infrastructure Assets and Telecom Infrastructure Assets for Additional Investment No. 2 - Summary related to the business operation of the Telecom Infrastructure Assets

and Telecom Infrastructure Assets for Additional Investment No. 2 -- Fiber Optic Cable and Upcountry Broadband System Businesses - Operations and Maintenance”, “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Asset and Revenue Sale and Transfer Agreements” and “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Master Lease, Operation and Management Agreements” for further details on the operation and maintenance of the Initial Telecom Infrastructure Assets.

2.2.2 The Telecom Infrastructure Assets for Additional Investment No. 1

The Telecom Infrastructure Assets for Additional Investment No. 1 were invested in by the Fund using the proceeds of the Thai Facility Agreement. See “Name, location, characteristics, summary related to the business operation of the Telecom Infrastructure Business, categories and details regarding the Telecom Infrastructure Assets and Telecom Infrastructure Assets for Additional Investment No. 2 - Summary related to the business operation of the Telecom Infrastructure Assets and Infrastructure Assets for Additional Investment No. 2” for further details of the Telecom Infrastructure Assets for Additional Investment No. 1.

Under the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1 and the Long-Term Lease Agreement with AWC in Relation to FOC for Additional Investment No. 1, the Fund acquired the Telecom Infrastructure Assets for Additional Investment No. 1, further increasing the size and diversity of the portfolio of the Fund. The Telecom Infrastructure Assets for Additional Investment No. 1 primarily consist of (a) the right to the net revenues from and including the Commencement Date for Additional Investment No. 1 until the expiry date of the Additional AWC Leasing Agreement derived from the lease of AWC Towers for Additional Investment No. 1 owned by AWC (including all claims, awards, judgments, suits ruled in favour of AWC and any other proceeding or any other right to which AWC is entitled arising out of or in connection with such revenues and any agreement under which such revenues would be derived (except for AWC’s rights and claims with respect to such revenues or arising out of or in connection with such agreements which AWC is or has been entitled to prior to the Commencement Date for Additional Investment No. 1 regardless of whether AWC makes or has made a claim or receives payment from such rights and claims before or after the Commencement Date for Additional Investment No. 1)), including the ownership of the AWC Towers for Additional Investment No. 1 following the expiry date of the Additional AWC Leasing Agreement to be transferred to the Fund under the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1; and (b) the long-term leasehold with a term of 20 years of the AWC FOC for Additional Investment No. 1, including the call option thereof following the expiry date of the long-term lease and subject to fulfilment of other conditions specified in the Long-Term Lease Agreement with AWC in Relation to FOC for Additional Investment No. 1. See “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Telecom Infrastructure Assets for Additional Investment No.1 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No.1 - Agreements for Acquisition of the Telecom Infrastructure Assets for Additional Investment No. 1 - AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1” and “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Telecom Infrastructure Assets for Additional Investment No.1 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No.1 - Agreements related to the seeking of benefits

from the Telecom Infrastructure Assets for Additional Investment No.1 - Long-Term Lease Agreement with AWC in Relation to FOC for Additional Investment No. 1”.

The Fund has leased a portion of the AWC FOC for Additional Investment No. 1 to TICC. Under the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1, TICC, as anchor tenant and manager, is responsible for operating and maintaining the AWC FOC for Additional Investment No. 1. Our portfolio of towers stretch across Thailand, with the highest concentrations of our towers in the densely populated Northeast, North and BMA regions of Thailand, with 2,453, 2,349 and 2,227 towers, respectively, and, following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, 2,511, 2,454 and 2,335 towers, respectively, where we believe the demand for new mobile services that require tower space is strong and the availability of new towers is limited, leading to significant opportunities for attracting co-location tenants. In relation to the TUC Towers for Additional Investment No. 2 and the FOC owned by TUC, True Move and TICC to be additionally invested in by the Fund pursuant to the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, TUC and TICC will, as anchor tenants lease and continue to use certain parts of the Telecom Infrastructure Assets for Additional Investment No. 2 under the Amended and Restated Existing Lease Agreements.

The terms of the Asset and Revenue Sale and Transfer Agreements and the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1 with respect to the net revenues to be generated by the BFKT Telecom Assets, AWC Towers and AWC Towers for Additional Investment No. 1 provided us with approximately THB 3,024.14 million and THB 87.89 million, respectively, in total contracted revenue in the twelve months ending December 31, 2016 and approximately THB 1,505.05 million and THB 43.59 million, respectively in the six months ending June 30, 2017. Moreover, the terms of the Master Lease, Operation and Management Agreements and the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1 with respect to revenue generated by the lease of assets provided us with THB 2,516.77 million and THB 746.65 million, respectively, in total contracted revenue (including advance rental payments) in the twelve months ending December 31, 2016 and THB 1,295.88 million and THB 376.31 million, respectively in the six months ending June 30, 2017.

The Fund's investment mandate is to invest in infrastructure businesses as a part of the Telecom Infrastructure Assets. We benefit from the Telecom Infrastructure Assets by virtue of our contractual rights to receive the net revenues to be generated from them or, as applicable, by leasing them, initially to the anchor tenants and engaging the Telecom Asset Manager to provide certain administrative and marketing services for us. Under the Master Lease, Operation and Management Agreements and the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1, the anchor tenants are responsible for operating and managing the Telecom Infrastructure Assets.

We capitalize upon what we believe to be emerging trends within the Thai telecommunications industry towards infrastructure integration and sharing, as well as the use of telecommunications infrastructure offered by independent third-party infrastructure providers, by offering infrastructure sharing to multiple telecommunications service providers on a co-location basis. We also believe the industry has strong potential for continued growth in terms of new tower and FOC construction driven by the introduction of 3G, 4G and new mobile telecommunications platforms in Thailand, as well as expected continued increases in demand for wireless and broadband services from consumers. True has built the True Tower Assets in strategic locations in Thailand to achieve the targeted network area and population requirements of True Group and other telecommunications operators, including holders of 2100 MHz licenses, 1800 MHz licenses, 900 MHz licenses and other spectrum frequency licenses. We believe that the True Tower Assets enable us to offer our tenants an enhanced portfolio of telecommunications towers strategically placed in locations in Thailand to better meet their coverage and service quality needs. The True Tower Assets form a vital part of True Group's network expansion plans while complementing our portfolio with towers that can be leased by the Fund to True Group as well as additional tenants. Additional tenants for our True Tower Assets are accretive to our cash flow because the incremental cost of adding new tenants to existing towers is relatively low. For example, since October 2014, the Fund has leased a number of slots on the True Tower Assets to DTAC TriNet Co., Ltd., a third party telecommunications operator. Some of the core FOC acquired from TICC and AWC, in relation to the AWC FOC for Additional Investment No.1, has available additional dark fiber capacity to make available to co-location tenants.

Under the Asset and Revenue Sale and Transfer Agreements and the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1, the Transferring Entities grant us a right to receive a first offer to purchase additional telecommunications infrastructure assets and/or the revenues to be generated by such assets if True Group determines to sell such assets or revenues generated by such additional assets to third parties. Following the transactions for the Telecom Infrastructure Assets for Additional Investment No. 2, under the Asset and Revenue Sale and Transfer Agreements and the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 2, the Transferring Entities will grant us a right to receive a first offer to purchase

additional telecommunications infrastructure assets and/or the revenues to be generated by such assets if True Group determines to sell such assets or revenues generated by such additional assets to third parties.

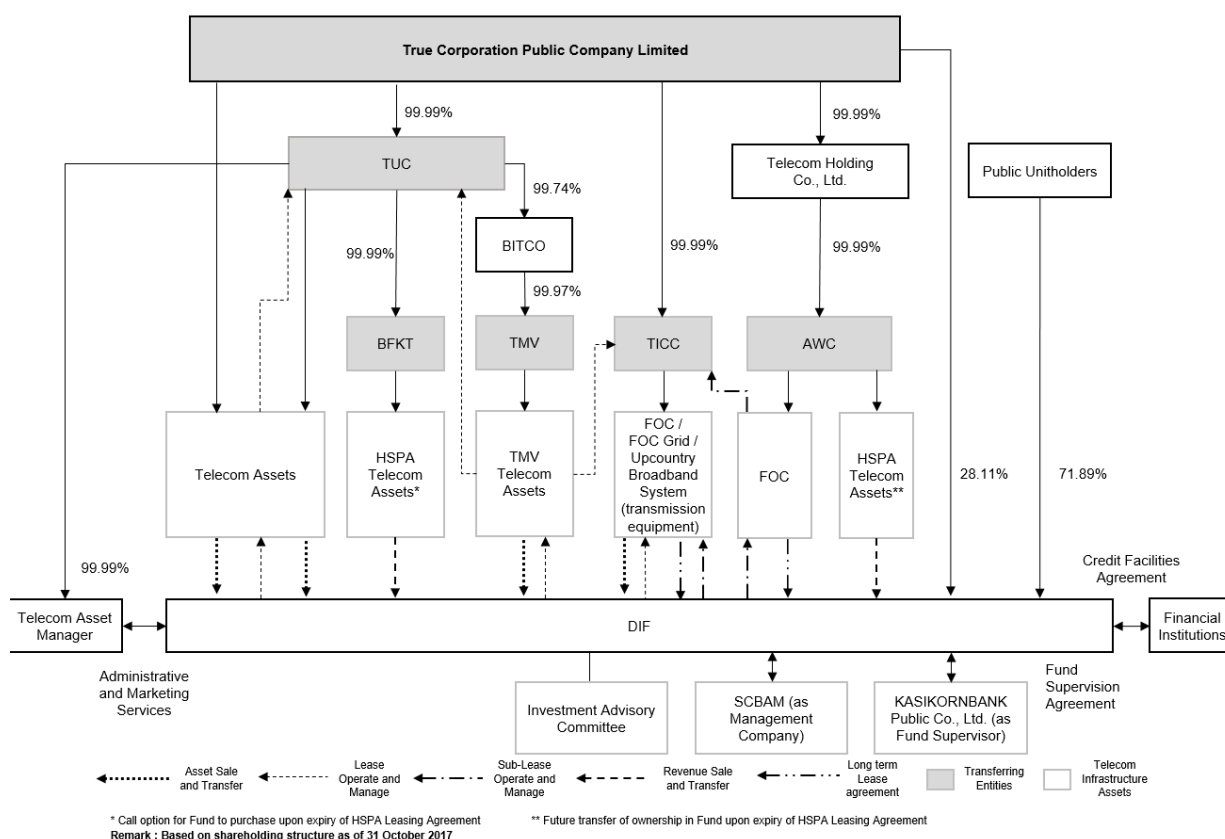

Our revenue is primarily generated from contracted tenant leases (with such tenants having a corresponding duty to conduct operations and management) of and, as applicable, the right to revenues in connection with the Telecom Infrastructure Assets until the expiry of relevant Transaction Documents, Transaction Documents for Additional Investment No.1, and Transaction Documents for Additional Investment No.2. After the expiry of such relevant agreements, if not be renewed, the annual rental payments on the tenant leases will vary considerably depending upon various factors, including but not limited to, tower location, amount of tenant equipment on the tower, ground space required by the tenant, tower capacity and any relevant discount or otherwise. Our primary costs typically include land and property lease costs, right of way costs, insurance premiums, property tax, administrative and marketing fees paid to the Telecom Asset Manager and expenses paid to third party service providers. With respect to the right to the net revenues generated by the BFKT Telecom Assets, the AWC Towers, the AWC Towers for Additional Investment No. 1 and the AWC Towers for Additional Investment No. 2, the amount of revenues we receive depends on the lease of the BFKT Telecom Assets by CAT Telecom under the HSPA Leasing Agreement, the lease of the AWC Towers and the AWC Towers for Additional Investment No. 1 by BFKT under the AWC Leasing Agreement and the Additional AWC Leasing Agreement, the AWC Towers for Additional Investment No. 2 by BFKT under the AWC Leasing Agreement and the Additional AWC Leasing Agreement No. 2 and BFKT's and AWC's obligations to pay us such revenues in accordance with the terms and conditions of the relevant Asset and Revenue Sale and Transfer Agreement and the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1 and the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 2.

As of the date of this Fund Scheme, True Group is a fully-integrated telecommunications provider and convergence leader in Thailand. True Group believes its convergence strategy, which offers value-for-money propositions by combining True Group's various products and services, is one of its key competitive advantages as it continues to fulfil customers' various demands and lifestyles. By converging its voice, wired and wireless broadband Internet, pay TV and digital TV, as well as a comprehensive range of digital media and content, True Group is well positioned to accelerate growth alongside consumers' growing demands for telecommunications and digital services. In the mobile telecommunications sphere, True Group operates through TrueMove H, which includes (i) TUC, a provider of mobile telecommunication services with 2100 MHz, 1800 MHz and 900 MHz frequency spectrum licenses, and (ii) Real Move, a reseller of CAT Telecom's 3G HSPA services on the 850 MHz frequency spectrum. As of June 30, 2017, TrueMove H had a subscriber base of 26.2 million, representing approximately 29 percent of Thailand's mobile market by subscribers (excluding subscribers of CAT Telecom, TOT and their MVNOs). True was initially established in 1990 as a wireline network provider and has grown through acquisitions and organic growth to become one of the largest telecommunications services providers in Thailand. True's largest shareholders include the CP Group, which is a large agro-industrial conglomerate in Thailand and its founder. True is a publicly traded company on the SET. For the twelve months ended December 31, 2016, True Group had consolidated total revenues of THB 124,719 million (US\$ 3,464 million) and EBITDA of THB 25,071 million (US\$ 696 million), translated by BOT's average selling rate as of 31 December 2016 at THB 36.005 per USD.

The Transferring Entities, other than True, are direct and indirect subsidiaries of True and include (a) BFKT, a provider of telecommunications towers and network equipment rental and operation and maintenance services to CAT Telecom pursuant to the HSPA Leasing Agreement, which sold us the right to the net revenues to be generated from renting 1,485 telecommunications

towers comprising the BFKT Towers, and 47,250 km of FOC and related transmission equipment comprising the BFKT FOC Transmission Grid, as well as an option to purchase certain of the BFKT Telecom Assets upon the expiry of the HSPA Leasing Agreement; (b) AWC, a provider of telecommunications tower construction and leasing services to other subsidiaries of True, which (i) sold us the right to the net revenues to be generated from renting 4,698 telecommunications towers comprising the AWC Towers and the AWC Towers for Additional Investment No. 1, and will transfer certain of the AWC Towers and the AWC Towers for Additional Investment No. 1 to us upon the expiry of the AWC Leasing Agreement and the Additional AWC Leasing Agreement, (ii) provided a long-term leasehold of 20 years of the AWC FOC for Additional Investment No. 1, as well as an option to purchase such assets upon the expiry of the long-term lease and (iii) will sell us the right to the net revenues to be generated from renting 149 telecommunications towers comprising the AWC Towers for Additional Investment No. 2, and will transfer such AWC Towers for Additional Investment No. 2 to us upon the expiry of the Additional AWC Leasing Agreement No. 2; (c) TICC, a provider of nationwide fixed-line, broadband and data services to end customers, which (i) sold us its core FOC grid made up of 5,112 km FOC and related transmission equipment, and an upcountry broadband system with a capacity of approximately 1.2 million ports for consumer broadband, both located in the upcountry regions of Thailand, and continue to use the FOC grid and transmission equipment and upcountry broadband system as an anchor tenant and (ii) will provide us a long-term leasehold of approximately 30 years of FOC for FTTx for the provision of Internet and broadband Internet services in BMA with approximate distance of 670 kilometers (or approximately 80,014 core kilometers), including a call option of the FOC for FTTx upon the expiration of the term of the long-term leasehold and fulfillment of other conditions to be determined, with the exercise price being THB 200 million; (d) TUC, a provider of mobile services, will sell us (i) 350 telecommunications towers comprising the TUC Towers for Additional Investment No. 2 and (ii) ownership in FOC for provision of mobile services in provincial areas with approximate distance of 1,113 kilometers (or approximately 62,594 core kilometers) which comprise the TUC FOC for Additional Investment No. 2; (e) True Move, a provider of mobile telecommunications services, will sell us ownership in core FOC for provision of mobile and Internet services in the BMA with an approximate distance of 542 kilometers (or approximately 117,147 core kilometers) which comprise the True Move Core FOC for Additional Investment No. 2; and (f) True, which sold us 6,000 telecommunications towers comprising the True Tower Assets, and which TUC leases, operates and manages as the anchor tenant.

The following diagram illustrates the structure of the Fund and the relationships among the Management Company, the Fund Supervisor, the Telecom Asset Manager, True, the Transferring Entities, the anchor tenants and public Unitholders after the completion of the transactions which are contemplated in the relevant agreements in relation to the Telecom Infrastructure Assets for Additional Investment No. 2.

The diagram above has been simplified for illustrative purposes and does not reflect all the information regarding the structure of the Fund or the relationships among the entities described above as described elsewhere in this document, including the sections headed “Name, location, characteristics, summary related to the business operation of the Telecom Infrastructure Business, categories and details regarding the Telecom Infrastructure Assets and the Telecom Infrastructure Assets for Additional Investment No. 2”, “Related Party Transactions and Disclosure Requirements and “Management of the Fund.”

2.3.2 Summary related to the business operation of the Telecom Infrastructure Assets and the Telecom Infrastructure Assets for Additional Investment No. 2

(a) General

Under the Asset and Revenue Sale and Transfer Agreements, we acquired one of the leading and most diverse portfolios of telecommunications infrastructure assets in Thailand in terms of our interests in telecommunications towers and types of telecommunications infrastructure. See “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets – Asset and Revenue Sale and Transfer Agreements ” for more details. The Initial Telecom Infrastructure Assets consist primarily of (i) the ownership of 6,000 telecommunications towers and other related passive telecommunications infrastructure for mobile telecommunications services comprising the True Tower Assets acquired from True; (ii) the ownership of a core FOC grid and related transmission equipment and an upcountry broadband system; and (iii) the right to the net revenues (including all claims, awards, judgments, suits and any other rights of BFKT and AWC arising out of or in connection with such revenues and any agreement under which such revenues would be derived (except for BFKT’s and AWC’s rights and claims with respect to such revenues or arising out of or in connection with such agreements which BFKT or AWC is or has been entitled to prior to the

Analysys Mason, a leading international advisory firm in the telecommunications industry, has noted based on its asset visit for the Telecom Infrastructure Assets for Additional Investment No. 2 that the telecommunications towers are in very good condition and the FOC assets are of good quality and condition. Such evaluation is based on Analysys Mason's experience and comparisons of the Thai and foreign telecommunications industries.

Under the Master Lease, Operation and Management Agreements and the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1, TUC and TICC, as our anchor tenants, leases, or will lease, and continue to use our Telecom Infrastructure Asset. In relation to the TUC Towers for Additional Investment No. 2 and the FOC owned by TUC, True Move and TICC to be additionally invested in by the Fund pursuant to the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, TUC and TICC will, as anchor tenants lease and continue to use certain parts of the Telecom Infrastructure Assets for Additional Investment No. 2 under the Amended and Restated Existing Lease Agreements. See "Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets – Summary of key terms of the agreements for acquisition of the Telecom Infrastructure Assets for Additional Investment No. 1 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 1 and Summary of key terms of the agreements for acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2 - Master Lease, Operation and Management Agreements, Agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No.1, Agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2" for more details on the leaseback arrangements relating to the Telecom Infrastructure Assets. Under the Master Lease, Operation and Management Agreements, the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1 and the relevant Amended and Restated Existing Lease Agreements, the anchor tenants are, or will be, responsible for operating and managing the Telecom Infrastructure Assets and the Telecom Infrastructure Assets for Additional Investment No. 2, as described in "Agreements Relating to the Management or Utilization of the Infrastructure - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets, Summary of key terms of the agreements for acquisition of the Telecom Infrastructure Assets for Additional Investment No. 1 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 1 and Summary of key terms of the agreements for acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2 – Master Lease, Operation and Management Agreements, Agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No.1 and Agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2." Our principal Telecom Infrastructure Assets, as well as the Telecom Infrastructure Assets for Additional Investment No. 2 following the acquisition, are summarized below.

(b) Tower Business

We own or are entitled to the net revenues generated from a portfolio of approximately 12,183 telecommunications towers, consisting of 9,461 ground-based towers, 2,199 rooftop-based towers, 523 DAS. Following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, we will own or will be entitled to the net revenues generated from a portfolio of approximately 12,682 telecommunications towers, with the addition of the right to receive net revenue

derived from the lease of approximately 149 towers from AWC and 350 towers from TUC. Our towers are located across Thailand, with towers in each of the country's 77 provinces and 18 percent in the densely populated BMA, with 2,227 towers. A majority of the towers were built within the past 5 years. BFKT and TUC have historically used or will use the towers to provide their mobile telecommunications services as part of True Group's strategy to provide multiple network offerings throughout Thailand, including, through Real Move, in association with CAT Telecom. As the anchor tenant on our towers, TUC continues to use the towers for its current mobile network requirements, as well as expected development of True Group's expanding 3G and 4G networks and the introduction of new mobile telecommunications platforms in Thailand. In addition, all of the True Tower Assets that we acquired from True have available slots to host multiple mobile telecommunications service providers, allowing for additional co-location tenants, which we believe increases our revenue and only incrementally increases our costs under the Master Services Agreement. For example, since October 2014, the Fund has leased a number of slots on the True Tower Assets to DTAC TriNet Co., Ltd., a third party telecommunications operator.

(1) Tower and Slot Hosting

Our telecommunications tower portfolio is capable of hosting multiple networks in various combinations of the 850 MHz, 1800 MHz, 2100 MHz and other frequency spectrums. There are no specific characteristics of our telecommunications towers that limit them to 2G, 3G or 4G operators, and we expect that our towers will be capable of hosting operators of additional commercial mobile technologies in the future. Our towers are structurally capable of hosting the 2100 MHz, 1800 MHz and 900 MHz frequency spectrums. True, through TUC, and the other major mobile telecommunications service providers in Thailand have been granted 2100 MHz, 1800 MHz and 900 MHz spectrum licenses and Type Three telecommunications licenses. The 2100 MHz networks require towers spaced more closely, and thus generally more towers are required to provide mobile telecommunications services on the 2100 MHz networks than networks operating at lower frequency spectrums. We believe we are positioned favorably to capture the new infrastructure needs of our anchor tenants and manager and the other major mobile operators as potential co-location tenants and managers.

(2) Geographic Distribution

Our portfolio of approximately 12,183 telecommunications towers and related infrastructure and equipment are located at sites in all 77 provinces of Thailand. The highest concentrations of our towers are in the densely populated Northeast, North and BMA regions of Thailand, with 2,453, 2,349 and 2,227 towers, respectively, where we believe the demand for new mobile services that will require tower space is strong and the availability of new towers is most limited, leading to significant opportunities for attracting co-location tenants. The following table sets forth the general geographic distribution, and each geographic region as a percentage of the total towers that we own, lease or are entitled to the net revenues generated from. The number of towers in each region is subject to change, but such changes, if any, will not impact the total number of towers to be owned by us and the revenue and lease payments that the Fund receives under the Asset Sale and Revenue Transfer Agreements with BFKT and AWC, the Master Lease, Operation and Management Agreement with TUC and the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1.

(3) Age Profile

True was one of the last of the three major Thai mobile telecommunications service providers to launch commercial operations, and as such we believe that a majority of the tower portfolio we own or are entitled to the net revenues generated from is one of the youngest in Thailand. A majority of the towers were built within the past 5 years, which we believe allows our anchor tenant to incur relatively lower maintenance expenses than if our portfolio were older and also may reduce the need to replace our existing telecommunications towers prematurely. Telecommunications towers generally have useful lives in excess of 30 years, and the life expectancy of our towers can be extended indefinitely

through regular maintenance and upkeep, which is be the responsibility of our anchor tenant. The following table sets forth the age profile of our telecommunications towers portfolio.

(4) Tower Facilities

Our telecommunications tower portfolio consists principally of four-legged and guyed mast ground-based towers typically ranging in height from 32 to 65 meters, as well as rooftop placements and mounting poles. The following diagram illustrates the standard facilities generally located on our four-legged and three-legged ground-based towers:

The diagram above is for illustrative purposes only and not necessarily indicative of the towers in our portfolio.

The active telecommunications infrastructure, including the antennas and microwaves in the diagram above, and equipment in the shelter, are owned and maintained by our tenants. In addition to the telecommunications towers, we own or are entitled to the net revenues generated from certain other passive telecommunications infrastructure, including shelters or containers, backup batteries, air conditioners and diesel generators, if any, which we receive, or will receive, the net revenues from under the Asset Sale and Revenue Transfer Agreements, AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1 and AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 2 or lease, or will lease, to the anchor tenant under the Master Lease, Operation and Management Agreements and the relevant Amended and Restated Existing Lease Agreement. Under the Master Lease, Operation and Management Agreements and the relevant Amended and Restated Existing Lease Agreement, our tenants pay power costs directly to regional electricity providers and are responsible for obtaining electricity connections with the regional electricity providers as well as fuel or other costs for backup power.

(5) Properties

Most of the land and property on which our telecommunications towers are located is currently leased by either the Fund or the Transferring Entities from private and public landowners. More than half of the leaseholds is three-year term and the remaining leaseholds have less than three years and up to ten years, and most contain an option to renew. Under the terms of most of the lease arrangements, the relevant Transferring Entities as lessees are entitled to grant a right of use and access to the leased premises to third parties, and the relevant Transferring Entities will grant us and our tenants such right pursuant to the Asset and Revenue Sale and Transfer Agreements and the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1 and, following

the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 2 and the TUC Asset Sale and Transfer Agreement for Additional Investment No. 2. The Transferring Entities continue as lessees under their respective leaseholds and use commercially reasonable efforts to renew the leaseholds in the name of the Fund as lessee when each leasehold expires, with the exception of the BFKT Towers, AWC Towers and AWC Towers for Additional Investment No. 1 and AWC Towers for Additional Investment No. 2, which will remain in the name of the Transferring Entities or other True Group entities until the transfer of ownership of the relevant BFKT Towers, AWC Towers and AWC Towers for Additional Investment No. 1 and AWC Towers for Additional Investment No. 2 to us.

(6) Tower Types

The following table sets forth the number and percentage distribution of the telecommunications towers we own, lease or are entitled to the net revenues generated from by tower type.

Tower Type	Height	BFKT Towers and AWC Towers	True Tower Assets	AWC Towers for Additional Investment No. 1	Total Number of Towers	Percentage of Total Towers
Ground-based.....	> 50m	3,455	520	41	4,016	33.0%

DAS.....	n/a	502	-	21	523	4.3%
Total.....		5,845	6,000	338	12,183	100.0%

In addition to ground-based and rooftop-based telecommunications towers, we are also entitled to the net revenues generated from approximately 523 in-building DAS. The DAS are generally located in shopping malls and office buildings and enable BFKT to enhance signal coverage within buildings. Under the leasing arrangements with the owners of the buildings where the DAS are located, the right to install and operate the DAS is in BFKT's name.

The following table sets forth the number and percentage distribution of the telecommunications towers we will own, lease or will be entitled to the net revenues generated from in relation to the Telecom Infrastructure Assets for Additional Investment No. 2 by tower type. The numbers of each type of tower may change, but such change, if any, will not impact the total number of towers, and the terms of the AWC Asset and Revenue Sale and Transfer Agreement and TUC Asset Sale and Transfer Agreement for Additional Investment No. 2.

(7) Capacity and Occupancy Rate

Ground-based telecommunications towers with a height of more than 32 meters and rooftop-based self-supporting towers can generally accommodate two or more tenants. The great majority of our towers have the capacity to support two or more tenants. Following final delivery of the True Tower Assets and the termination of exclusive rights in relation to the AWC Towers for Additional Investment No. 1, the average potential total capacity per tower (that is, total capacity divided by total number of towers) on our portfolio is 3.57. Following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, the average potential total capacity per tower on our portfolio will be 3.56.

The occupancy rate on our tower portfolio is 1.76 slot per tower. The following table sets forth the hosting capacity and occupancy at such time for the towers we purchased or otherwise are entitled to the net revenues generated from pursuant to the relevant Transaction Documents and Transaction Documents for Additional Investment No. 1.

Transferring Entity	Towers	Total Capacity ⁽¹⁾	Occupancy	Occupancy Rate (Occupancy/Towers)
True.....	6,000	22,541	15,249	2.54
AWC ⁽²⁾	4,698	14,524	4,698	1.00
BFKT ⁽³⁾	1,485	6,450	1,485	1.00
Total	12,183	43,515	21,432	1.76

Notes:

- (1) Capacity refers to the total number of slots on each tower multiplied by the number of towers to be transferred or from which we are entitled to the net revenues generated from, as applicable.
- (2) Includes towers owned by AWC which we are entitled to the net revenues generated from. Subject to CAT Telecom exclusivity.
- (3) Includes towers owned by BFKT which we are entitled to the net revenues generated from. Subject to CAT Telecom exclusivity

The following table sets forth the hosting capacity and occupancy at such time for the towers we purchased or otherwise are entitled to the net revenues generated from in relation to the Telecom Infrastructure Assets for Additional Investment No. 2.

TUC	350	1,179	700	2.00
Total	499	1,574	849	1.70
Notes:				

(1) Capacity refers to the total number of slots on each tower multiplied by the number of towers to be transferred or from which we are entitled to the net revenues generated from, as applicable.

(8) Tower Portfolio Expansion

Under the Asset and Revenue Sale and Transfer Agreements, the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1 and, following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 2 and the TUC Asset Sale and Transfer Agreement for Additional Investment No. 2, the Transferring Entities grant us a right to receive a first offer to purchase any additional telecommunications assets, including towers, if True Group determines to sell such assets to third parties. We expect True Group to continue to expand its mobile telecommunications network and broaden its customer base. To meet this expanding demand, TUC or other members of True Group may build-out or otherwise seek to acquire new towers, and therefore present us with commercially attractive opportunities to exercise the right of first offer if True Group chooses to sell such towers to other third parties. The acquisition of additional telecommunications towers may provide us with increased revenue through the relevant Amended and Restated Existing Lease Agreements and co-location tenancies and lower average administrative and other costs under the Master Services Agreement.

The construction of new towers generally includes the following steps:

- (i) site selection;
- (ii) engineering surveys;
- (iii) negotiation of leaseholds or purchase of land from title holders;
- (iv) application for governmental approvals and permits;
- (v) construction of towers; and
- (vi) purchase and installation of supporting equipment.

The typical timeline for the installation of new towers will depend on the type of tower (ground-based or rooftop) and location (urban or rural). Site surveys and designs can take five weeks; site acquisition, four weeks; governmental approvals and permits, ten weeks; and construction of the towers, eight weeks for ground-based towers and four weeks for rooftop-based towers. The primary government approvals and permits required for the installation of a new tower include, among others, a construction permit from the local government and NBTC approval. Consultative meetings with local residents are also required in some areas of Thailand.

In addition to acquiring additional towers, our anchor tenant is obligated under the relevant Amended and Restated Existing Lease Agreement to perform upgrades on our initial tower portfolio to enhance the structural strength and increase the capacity of our towers upon our request at our cost plus a reasonable margin. We expect to make such requests only when a co-location tenant has pre-committed to lease such increased capacity. See “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of

the Telecom Infrastructure Assets for Additional Investment No. 2 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2 – Agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2 – Amended and Restated Tower Master Lease, Operation and Management Agreement” for further details.

If we decide to invest in additional towers, we will likely require additional funds to do so, in which case we will be subject to the procedures with respect to borrowing, as set out in “Borrowing Policy,” and/or those with respect to the increase of capital set out in “Increase of Capital,” and in certain circumstances we may need to amend the Fund Scheme. We can provide no assurances that we will be presented with opportunities in the future to exercise our right of first offer to purchase additional telecommunications towers. Any additional towers acquired by the Fund are subject to the anchor tenant’s right of first refusal to lease, operate and manage slots on such towers under the Amended and Restated Existing Lease Agreement.

(9) Anchor Tenants and Co-location Tenants

Under the relevant Amended and Restated Existing Lease Agreement, TUC continues to use slots on our telecommunications towers and serve as our anchor tenant. Along with our right to receive revenues to be generated from the BKFT Towers, AWC Towers and AWC Towers for Additional Investment No. 1, the anchor tenant accounts for substantially all of our tower business revenues. See “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2 – Agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2 – Amended and Restated Tower Master Lease, Operation and Management Agreement” for further information.

We continue to seek third-party co-location tenants on the True Tower Assets, the BKFT Towers, AWC Towers, AWC Towers for Additional Investment No. 1 and, following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, we will seek co-location tenants on the TUC Towers for Additional Investment No. 2 and on the AWC Towers for Additional Investment No. 2, as necessary if such towers are transferred to us following the expiration of the HSPA Leasing Agreement or, as applicable, the AWC Leasing Agreement, or the Additional AWC Leasing Agreement or the Additional AWC Leasing Agreement No. 2, as additional tenants are accretive to our cash flow because the incremental cost of adding new tenants to existing towers is relatively low. We believe that third-party mobile telecommunications service providers who are developing new services (in particular 3G and 4G services on the 2100 MHz frequency spectrum, which requires more towers to achieve similar levels of network coverage than networks operating at lower frequency spectrums) will need to install their active telecommunications infrastructure at a larger number of towers in order to meet the network coverage requirements under their telecommunications licenses. In order to control their capital expenditures for non-core activities, we expect service providers to seek opportunities for co-location sharing of telecommunications towers, which should provide us with opportunities to lease slots on our towers to co-location tenants. The Telecom Asset Manager is responsible under the Master Services Agreement for marketing and selling such co-location tenancies.

Following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, approximately 6,332 of our telecommunications towers, including the BKFT Towers, AWC Towers, AWC Towers for Additional Investment No. 1 and AWC Towers for Additional Investment No. 2, will be subject to an exclusivity arrangement granted by BKFT to CAT Telecom, pursuant to which CAT Telecom’s consent is required prior to leasing available slots on those towers. Certain passive telecommunications infrastructure at our towers, including the shelter or container, backup batteries,

air conditioner and diesel generator, if any, are reserved under the relevant Amended and Restated Existing Lease Agreement for the exclusive use of our anchor tenant, and such passive telecommunications infrastructure are not available to third-party co-location tenants on our towers, who are responsible for providing these facilities themselves.

(10) True Tower Assets

The 6,000 telecommunications towers in our tower portfolio that constitute the True Tower Assets were acquired from True. We lease slots on these towers to TUC and, through the Telecom Asset Manager, have secured additional co-location tenants on certain of the available slots.

(11) BFKT Towers and AWC Towers

(a) BFKT Towers

The BFKT Towers are comprised of 1,485 telecommunications towers owned by BFKT and certain related passive infrastructure assets, and we purchased the right to the net revenues (including all claims, awards, judgments, suits and any other rights of BFKT arising out of or in connection with such revenues and any agreement under which such revenues would be derived (except for BFKT's rights and claims with respect to such revenues or arising out of or in connection with such agreements which BFKT is or has been entitled to prior to the Commencement Date regardless of whether BFKT makes or has made a claim or receives payment from such rights and claims before or after the Commencement Date)) generated on and from the Commencement Date until the Expiry Date from the rental of the BFKT Towers for a period of 12 years. BFKT currently leases to and operates for CAT Telecom the BFKT Towers, which host elements of the active telecommunications infrastructure for use on the 850 MHz frequency spectrum. BFKT uses and maintains the BFKT Towers and provides tower rental and operation and maintenance services, on an exclusive basis, to CAT Telecom. BFKT transfers the net revenues generated from such rental to us in accordance with the terms and procedures provided in the Asset and Revenue Sale and Transfer Agreement with BFKT. The Fund is not be entitled to any revenues generated from the operation and maintenance services performed on the BFKT Towers by BFKT. See "Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets – Asset and Revenue Sale and Transfer Agreements – Asset and Revenue Sale and Transfer Agreement dated December 24, 2013 between BFKT and the Fund" and "Investment Policy– The Initial Telecom Infrastructure Assets".

Under the relevant Asset and Revenue Sale and Transfer Agreement, BFKT granted us a call option to purchase 1,435 of the BFKT Towers and the BFKT FOC Transmission Grid for THB 10 million, exercisable upon the expiry of the HSPA Leasing Agreement. See "Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets – Asset and Revenue Sale and Transfer Agreements – Asset and Revenue Sale and Transfer Agreement dated December 24, 2013 between BFKT and the Fund" and "Investment Policy – The Initial Telecom Infrastructure Assets" for further details on the call option. Because the call option to purchase the BFKT Towers is contingent upon the occurrence of certain events that may not occur, we can provide no assurances that we will be presented with the opportunity to exercise the call option to purchase the BFKT Towers. The remaining BFKT Towers, whose legal title may be difficult to ascertain or may be subject to certain restrictions, will not be transferred to us following our exercise of the call option and will continue to be subject to revenue transfer between us and BFKT for ten years.

The HSPA Leasing Agreement prescribes certain important terms such as (1) the pricing formula, calculated using the number of the base transceiver stations ready to provide service, the fixed leasing and service fees, for NSS electronic devices, telecommunications towers and other related transmission equipment calculated using the node B type (with carrier configuration criteria) installed and operating on each telecommunications tower (2) the rollout requirement procedures in which CAT telecom will estimate the system bandwidth needed during operation and for the upcoming years for both CAT telecom and any reseller of CAT telecom, while BFKT creates rollout plans according to the estimates for confirmation by CAT telecom and its resellers and (3) the terms for the call option which BFKT provides to CAT telecom in which CAT telecom has the right to purchase part of the telecommunications towers and telecommunications systems owned and by BFKT under the HSPA Leasing Agreement. If CAT telecom exercise its rights to purchase under the agreement, BFKT must transfer 667 of its telecommunications towers and its FOC systems, with the right to the revenue generated from which intended to be sold to the Fund under the Asset and Revenue Sale and Transfer Agreements, to CAT telecom. However, to exercise the right to purchase the telecommunications towers, CAT telecom has to pay the actual price of the towers, FOC systems with the following interests: (a) the interest rate for the average minimum loans of the four major Thai commercial banks, in the case where the exercise of such right during the first six months after the assets' leasing date or (b) the interest rate of 1 percent per month if such exercise of right is done after the six months' period. In addition, CAT telecom, as a state enterprise, may also be subject to consideration and approval of independent organizations, government agencies including the cabinet before the exercise of the right to purchase the telecommunications towers, FOC and other related transmission equipment from BFKT.

(b) AWC Towers

The AWC Towers are comprised of 4,360 telecommunications towers owned by AWC and certain related passive infrastructure assets in our tower portfolio, and we purchased the right to the net revenues (including all claims, awards, judgments, suits and any other rights of AWC arising out of or in connection with such revenues and any agreement under which such revenues would be derived (except for AWC's rights and claims with respect to such revenues or arising out of or in connection with such agreements which AWC is or has been entitled to prior to the Commencement Date regardless of whether AWC makes or has made a claim or receives payment from such rights and claims before or after the Commencement Date)) generated on and from the Commencement Date until the Expiry Date from the rental of the AWC Towers for a period of 12 years. AWC currently leases the AWC Towers to BFKT pursuant to the AWC Leasing Agreement, and BFKT in turn rents to and operates for CAT Telecom the AWC Towers, which host elements of the active telecommunications infrastructure for use on the 850 MHz frequency spectrum. Under the AWC Leasing Agreement, BFKT is responsible for operating and maintaining the AWC Towers. AWC transfers to us the revenues generated from BFKT's rental of the AWC Towers from AWC, net of operation and maintenance expenses, lease costs, insurance expenses and other expenses incurred from operation activities in relation to the AWC Towers, in accordance with the terms and procedures provided in the Asset and Revenue Sale and Transfer Agreement with AWC. See "Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure - Asset and Revenue Sale and Transfer Agreements – Asset and Revenue Sale and Transfer Agreement dated December 24, 2013 between AWC and the Fund," "Name, location, characteristics, summary related to the business operation of the Telecom Infrastructure Business, categories and details regarding the Telecom Infrastructure Assets and Telecom Infrastructure Assets for Additional Investment No. 2" for further details on the arrangement between the Fund, AWC, BFKT and CAT Telecom.

Under the Asset and Revenue Sale and Transfer Agreement with AWC, AWC is obligated to transfer ownership of a minimum of 3,968 of the AWC Towers to us upon the expiration of the AWC Leasing Agreement, after which the revenue transfer arrangement in relation to the AWC Towers will terminate, and we would own the AWC Towers. See “Agreements Relating to the Management or Utilization of the Infrastructure - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure - Asset and Revenue Sale and Transfer Agreements – Asset and Revenue Sale and Transfer Agreement dated December 24, 2013 between AWC and the Fund” and “Name, location, characteristics, summary related to the business operation of the Telecom Infrastructure Business, categories and details regarding the Telecom Infrastructure Assets and and Telecom Infrastructure Assets for Additional Investment No. 2” for further details on AWC’s obligations. Because the obligation to transfer the AWC Towers is contingent upon the occurrence of certain events that may not occur, we can provide no assurances that AWC will transfer such towers to us. The remaining AWC Towers, whose legal title may be difficult to ascertain or may be subject to certain restrictions, will not be transferred to us following the expiry of the AWC Leasing Agreement and will continue to be subject to revenue transfer between us and AWC for ten years.

Under the AWC Leasing Agreement, BFKT leases the telecommunications towers from AWC. The agreement describes the leasing of the entire towers with BFKT as the sole lessee. BFKT will be responsible for the operation and maintenance of AWC’s telecommunications towers and will pay advance monthly rental on the 7th day of each month, or the first Business Day after or the other date as later agreed by both parties. In addition, BFKT will also be responsible for the leasing fees for the lands and buildings on which the AWC telecommunications towers are installed. The leasing fees which AWC will receive from BFKT will be equal to the to AWC’s leasing fee which BFKT will receive under the HSPA Leasing Agreement after a deduction of certain expenses. The AWC Leasing Agreement will expire on 3 August 2025, but will be subject to extension if CAT telecom extends its HSPA Leasing Agreement.

(c) AWC Towers for Additional Investment No. 1

The AWC Towers for Additional Investment No. 1 are comprised of 338 telecommunications towers and related infrastructure and equipment located at sites in Bangkok and in 60 provinces of the country. The highest concentrations of the AWC Towers for Additional Investment No. 1 is in Bangkok Metropolitan Region, where 84 towers are located. The Fund believes the demand for new mobile services that require tower space is strong and the availability of new towers limited, leading to significant opportunities for attracting co-location tenants of the AWC Towers for Additional Investment No. 1.

(d) AWC Towers for Additional Investment No. 2

The AWC Towers for Additional Investment No. 2 are comprised of the right to receive net revenue derived from the lease of approximately 149 telecommunications towers and other relevant passive telecommunications equipment (if any) from AWC, comprising the net revenue to be generated from a future date agreed upon by the Fund and AWC until the expiry date of the AWC Leasing Agreement No. 2 including ownership in such telecommunications towers and other relevant passive telecommunications equipment (if any), following the expiry date of the AWC Leasing Agreement No. 2 and fulfillment of other conditions. The approximately 149 telecommunications towers are ground-based towers, rooftop towers and distributed antenna systems located at sites in Bangkok and 35 provinces. The AWC Towers for Additional Investment No. 2 currently host the active telecommunications infrastructure used for service provision mainly on the 850 MHz frequency band.

The AWC Towers for Additional Investment No. 2 can structurally host various networks in respect of the 850 MHz, 900MHz, 1800 MHz, 2100 MHz and other frequency bands. The towers

invested by the Fund do not only have specific characteristics that limit their service provision to 2G, 3G or 4G operators. Following the transfer of ownership of the AWC Towers to the Fund according to the terms and conditions specified in the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 2, the Fund expects that the AWC Towers for Additional Investment No. 2 will be capable of hosting additional operators that commercially utilize mobile technologies in the future.

The majority of the telecommunications towers had been constructed for a period of not more than five years, and generally the useful life of the telecommunications towers is significantly more than 30 years with proper maintenance.

(12) TUC Towers for Additional Investment No. 2

The TUC Towers for Additional Investment No. 2 are comprised of approximately 350 telecommunications towers owned by TUC, from which the Fund will seek benefits in a manner as permitted by the laws, which includes leasing the assets to third parties, and also including leasing part of the towers to TUC. TUC will use the telecommunications towers to provide mobile services. The telecommunications towers are ground-based towers and rooftop towers and host the active telecommunications infrastructure used for service provision mainly on the 2100 MHz, 900 MHz and 1800 MHz frequency bands. The majority of the telecommunications towers had been constructed for a period of not more than one to two year, and generally the useful life of the telecommunications towers is significantly more than 30 years with proper maintenance.

(13) Operation and Maintenance

Under the relevant Amended and Restated Existing Lease Agreement, the anchor tenant and, in respect of the BFKT Towers, AWC Towers, AWC Towers for Additional Investment No. 1, and, following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, the AWC Towers for Additional Investment No. 2, BFKT, is responsible for operating and maintaining the telecommunications towers. TUC, as the anchor tenant and management service provider of the Fund, has duties related to operation and maintenance of the True Tower Assets and TUC Towers for Additional Investment No. 2. These activities include, as applicable, the general upkeep and maintenance of the towers, periodic stability checks of the towers, provision and maintenance of a fire alarm system and security services. The operation and maintenance of certain passive telecommunications infrastructure, owned by us and leased exclusively to the anchor tenant or owned by any third-party tenants, consisting of, among others, shelters and/or containers, backup batteries, air conditioners and diesel generators, if any, is also the responsibility of the anchor tenant or third-party tenants, as applicable. The anchor tenant is required to meet certain standards specified in the relevant Amendment and Restated Existing Lease Agreement, which we believe that our towers and other related passive telecommunications infrastructure are properly operated and maintained. We also entered into a Master Services Agreement with the Telecom Asset Manager, under which the Telecom Asset Manager provides certain administrative, marketing and other services for us. For further details, see “Agreements Relating to the Management or Utilization of the Infrastructure Business – Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets – Master Services Agreement” and “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets and Summary of key terms of the agreements for acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2 – Master

Lease, Operation and Management Agreements and Agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2.”

(14) Sales and Marketing

The Telecom Asset Manager is responsible for sales and marketing of the slots on the telecommunications towers under the terms of the Master Services Agreement.

(15) Insurance

The True Tower Assets are covered by suitable insurance coverage in the Fund’s name, and following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, the TUC Towers for Additional Investment No. 2 will be covered by suitable insurance coverage in the Fund’s name. BFKT and AWC continue to maintain insurance policies covering the BFKT Towers, AWC Towers, the AWC Towers for Additional Investment No. 1, and, following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, the AWC Towers for Additional Investment No. 2, unless and until we exercise the call option to purchase the BFKT Towers or AWC transfers the AWC Towers, or the AWC Towers for Additional Investment No. 1 or the AWC Towers for Additional Investment No. 2 to us, in each case upon the expiration of the HSPA Leasing Agreement, the AWC Leasing Agreement, or the Additional AWC Leasing Agreement or the Additional AWC Leasing Agreement No. 2, as applicable. The policy that BFKT and AWC arrange in the Fund’s name cover stock, business interruption, property damage and public liability. We consider such insurance coverage to be adequate and in accordance with customary industry practice.

(16) Competition

The major mobile telecommunications service providers in Thailand, including AIS, TRUE, DTAC, CAT Telecom and TOT, have their own telecommunications tower portfolios. These service providers may be contemplating spinning off their tower portfolios into separate tower companies or transferring their portfolios to independent tower companies. However, there are currently no independent tower owners which provide site rental in Thailand. The telecommunications tower industry in Thailand may experience consolidation and investment by international companies, resulting in the emergence of stronger competitors.

Many of our telecommunications towers are located in the densely populated BMA where the anchor tenant is experiencing high subscriber traffic, and thus we believe the anchor tenant, as well as any third-party mobile telecommunications service provider that becomes our tenant, are likely to renew their leases at the end of their current terms in order to minimize disruption of coverage in such areas, avoid the potential loss of revenue and also avoid the expense they would incur from the relocation of their antenna and other active infrastructure assets.

(c) Fiber Optic Cable and Upcountry Broadband System Businesses

Our FOC and upcountry broadband system businesses consists primarily of (i) the ownership of a core FOC grid and related transmission equipment and an upcountry broadband system, both acquired from TICC, (ii) the right to the net revenues to be generated from the rental of a FOC transmission grid, including FOC and related transmission equipment, owned by BFKT and comprising the BFKT FOC Transmission Grid as well as ownership in such assets if we exercise the call option granted by BFKT upon the expiry of the HSPA Leasing Agreement and (iii) the long-term leasehold with a term of 20 years of the AWC FOC for Additional Investment No. 1, including the call option thereof after the expiry date of the long-term lease. The core FOC grid and upcountry broadband system and the sub-leased portion of the AWC FOC for Additional Investment No. 1 are used by TICC, as our anchor tenant, to provide voice, data, image and video transmission services to its customers. BFKT rents to and operates exclusively for CAT Telecom the BFKT FOC Transmission

Grid for the provision of backhaul from telecommunications towers to support CAT Telecom's 3G HSPA 850 MHz network. TICC and BFKT continue to monitor these grids and systems through their databases and support systems that facilitate the maintenance of the FOC grids and upcountry broadband system. The BFKT FOC Transmission Grid encompassed approximately 47,250 km of fiber. Our core FOC grid acquired from TICC consists of 5,112 km of FOC and dense wave digital multiplexing ("DWDM") transmission equipment placed in 69 provinces of Thailand. The upcountry broadband system consists of various active and passive infrastructure, including transmission equipment, core IP equipment and last mile and access cables, including FOC, copper cable and coaxial cable with a capacity of approximately 1.2 million ports for consumer broadband.

Following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 1 we will also invest in (i) the ownership in the FOC of TUC for a distance of approximately 1,113 kilometers (or approximately 62,594 core kilometers), (ii) the ownership in the core FOC of True Move for a distance of approximately 542 kilometers (or approximately 117,147 core kilometers) and (iii) a long-term leasehold of approximately 30 years of FOC for FTTx for a distance of approximately 670 kilometers (or approximately 80,014 core kilometers), including call option of the FOC for FTTx upon expiration of the term of the long-term leasehold and fulfillment of other conditions to be determined, with the exercise price for the purchase of the ownership in such assets being THB 200 million. The FOCs to be invested by the Fund will comprise 24 core to 216 core fiber optics cables, for a distance of approximately 2,325 kilometers (or approximately 259,754 core kilometers). The FOCs to be additionally invested in by the Fund as part of the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2 have been used for a period of up to one to two years, whereas the FOCs have a useful life of up to 50 years.

Under the Master Lease, Operation and Management Agreement with TICC, we lease to TICC as the anchor tenant approximately 73,275 core km of dark fiber, or approximately 60 percent, on the core FOC grid from the Investment Date until 2026, with TICC's reserved utilization scheduled to reach 88,472 core km, or approximately 72 percent of the core grid, by 2026. The transmission equipment related to the core FOC grid will be leased by TICC on an exclusive basis from the Investment Date until 2018. TICC will lease the active telecommunications infrastructure in the upcountry broadband system on an exclusive basis from the Investment Date until 2018 and the passive telecommunications infrastructure in the upcountry broadband system on an exclusive basis from the Investment Date until 2026 unless TICC agrees to release its right to exclusivity after 2018 subject to the conditions in the Master Lease, Operation and Management Agreements.

Under the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1 with TICC, the Fund initially leases a portion of the AWC FOC for Additional Investment No. 1 to TICC being approximately 197,240 core kilometres, or approximately 65 percent of the AWC FOC for Additional Investment No. 1 until 2026. TICC's reserved utilisation is scheduled to reach 213,818 core kilometres, or approximately 70.5 percent of the AWC FOC for Additional Investment No. 1, by 2026 in accordance with the conditions of the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1. In addition, upon expiry of the initial sub-lease term in December 2026, provided that all the renewal conditions as stipulated in the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1 are met, TICC (or any other entities within True group to be agreed with the Fund) shall extend the sub-lease of at least 197,240 core kilometres of the AWC FOC for Additional Investment No. 1 for a period of 10 years or a period equal to the remaining term of the telecommunications license held by the relevant sub-lessee for the provision of the broadband service, whichever is shorter.

Under the relevant Amended and Restated Existing Lease Agreements regarding the FOC for the Telecom Infrastructure Assets for Additional Investment No. 2 with TUC and TICC, the Fund will lease parts of the FOC and Core FOC to TUC and parts of the FOC for FTTx to TICC. TUC and TICC,

which are the anchor tenants and management service provider of the Fund, will use the leased assets to provide mobile services and Internet and broadband Internet services, respectively. TUC, as the tenant, will be responsible for operation and maintenance of the FOC and Core FOC to be additionally invested by the Fund. TICC, as the tenant, will be responsible for operation and maintenance of the FOC for FTTx to be additionally invested by the Fund. TUC and TICC will be required to meet certain standards to be specified in the relevant Amended and Restated Existing Lease Agreements.

Pursuant to the relevant Asset and Revenue Sale and Transfer Agreement, we are entitled to the net revenue generated from the rental of the BFKT FOC Transmission Grid to CAT Telecom under the HSPA Leasing Agreement. We also have the right to lease the remaining dark fiber capacity on our core FOC grid acquired from TICC and the AWC FOC for Additional Investment No. 1 and, following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, the TUC FOC for Additional Investment No. 2, the True Move Core FOC for Additional Investment No. 2, and the TICC FOC for FTTx for Additional Investment No. 2, to third-party telecommunications providers, subject to TUC's and TICC's reserved utilization. Because the upcountry regions of Thailand are experiencing rapid economic growth and increased demand for broadband and data services, we believe our FOC is well positioned to attract additional tenants seeking to quickly expand their transmission grids outside of the BMA. See "Agreements Relating to the Management or Utilization of the Infrastructure Business — Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets, Summary of key terms of the agreements for acquisition of the Telecom Infrastructure Assets for Additional Investment No. 1 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 1 and Summary of key terms of the agreements for acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2 – Asset and Revenue Sale and Transfer Agreements, Agreements for Acquisition of the Telecom Infrastructure Assets for Additional Investment No. 1 and Agreements for Acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2" and "Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2 – Agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2"

(1) Description and Benefits of Fiber Optic Cable

Fiber optics are glass fibers that carry light along their wavelength. Fiber optics are widely used in communications, which permit transmission over longer distances and at higher bandwidths (data rates) than other forms of communication. FOC communication is a method of transmitting information from one place to another by sending pulses of light through an optic fiber. The process of communicating using fiber optics involves the following basic steps: Creating the optic signal involving the use of a transmitter, relaying the signal, ensuring that the signal does not become too distorted or weak, receiving the optic signal, and converting it into an electrical signal.

The main benefits of FOC are exceptionally low loss of data immune to electromagnetic interference, allowing longer distances between amplifiers and repeaters. FOC is therefore used instead of metal wires as several thousand electrical links can replace a single high bandwidth fiber cable.

(2) Description and Coverage of the Core FOC Grid

Our core FOC grid acquired from TICC is comprised primarily of 12 to 60 cores capable of carrying DWDM in multiples of up to 1600Gb/s. The transmission equipment in the core FOC grid consists of DWDM and SDH and is stationed at approximately 69 provinces of Thailand. The core FOC grid consists of approximately 5,112 km of FOC. The age of the cables in the core FOC grid ranges from one to seven years, and the FOC has an expected life span of up to 50 years. The majority of the core FOC grid is aerial, allowing for easy access and maintenance, as well as rapid construction and deployment of new cable. Some of the cable has been laid in ducts at road crossing and other locations to provide added protection. Our core FOC grid acquired from TICC does not include any last mile connectivity in the BMA.

Under the Master Lease, Operation and Management Agreement with TICC, TICC continues to lease dark fiber capacity on the FOC grid as the anchor tenant. The lease payments from TICC account for all of our core FOC grid revenues unless and until other tenants, cable operators or data and voice service providers lease dark fiber capacity on our core FOC grid as additional tenants. See “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets – Master Lease, Operation and Management Agreements - TUC Master Lease, Operation and Management Agreement” and “Name, location, characteristics, summary related to the business operation of the Telecom Infrastructure Business, categories and details regarding the Telecom Infrastructure Assets - Summary related to the business operation of the Telecom Infrastructure Assets and Infrastructure Assets for Additional Investment No. 2 - Fiber Optic Cable and Upcountry Broadband System Businesses – Dark Fiber Capacity” for further information.

(3) Description and Coverage of the AWC FOC for Additional Investment No. 1

The AWC FOC for Additional Investment No. 1 invested by the Fund is comprised of 12 to 144 cores with a distance of approximately 7,981 kilometres of FOC and is laid in 67 provinces of Thailand. The AWC FOC for Additional Investment No. 1 has been used for a period of one to two years, and the FOC has a life expectancy of up to 50 years. The majority of the AWC FOC for Additional Investment No. 1 is aerial, allowing for easy access and maintenance, as well as rapid construction and swift deployment of new cables. Some of the AWC FOC for Additional Investment No. 1 has been laid in underground ducts. The AWC FOC for Additional Investment No. 1 does not include any transmission system equipment and direct network to the end users (last mile).

Under the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1 with TICC, TICC leases the dark fiber capacity of the AWC FOC for Additional Investment No. 1 as the anchor tenant and manager. Initially, rental to be received from TICC was the sole source of income of in respect of the AWC FOC for Additional Investment No. 1 until more third-party tenants, cable business operators and data and voice service providers entered into leases of the remaining dark fiber capacity of the AWC FOC for Additional Investment No. 1 as additional tenants.

Under the Long-Term Lease Agreement with AWC in Relation to FOC for Additional Investment No. 1, AWC grants the Fund a call option to purchase the AWC FOC for Additional Investment No. 1 at the exercise price of THB 500 million, exercisable upon the expiry date of the long-term lease and subject to fulfillment of certain conditions in the said agreement. The Fund can provide no assurances that it will be presented with the opportunity to exercise the call option to purchase the AWC FOC for Additional Investment No. 1 because such ability to exercise this call option is subject to certain conditions, the realization of which cannot be guaranteed.

(4) Description and Coverage of the FOCs for Additional Investment No. 2

The FOCs to be additionally invested in by the Fund will comprise 24 core to 216 core fiber optics cables, for a distance of approximately 2,325 kilometers (or approximately 259,754 core kilometers). The FOCs to be additionally invested in by the Fund have been used for a period of up to one to two years, whereas the FOCs have a useful life of up to 50 years. The majority of the FOCs for Telecom Infrastructure Assets for Additional Investment No. 2 will be aerial, allowing for easy access and maintenance, as well as rapid construction and swift deployment of new cables. Some of the FOCs for Telecom Infrastructure Assets for Additional Investment No. 2 will have been laid in underground ducts. FOCs for Telecom Infrastructure Assets for Additional Investment No. 2 will not include any transmission system equipment and direct network to the end users (last mile).

Under the relevant Amended and Restated Existing Lease Agreements regarding the FOCs for the Telecom Infrastructure Assets for Additional Investment No. 2 with TUC and TICC, the Fund will lease parts of the FOC and core FOC to TUC and parts of the FOC for FTTx to TICC. TUC and TICC, which are the anchor tenants and management service providers of the Fund, will use the leased assets to provide mobile services and Internet and broadband Internet services, respectively. TUC, as the tenant, will be responsible for operation and maintenance of the FOC and core FOC to be additionally invested by the Fund. TICC, as the tenant, will be responsible for operation and maintenance of the FOC for FTTx to be additionally invested by the Fund. TUC and TICC will be required to meet certain standards to be specified in the Amendment Agreements to the Existing Lease Agreements.

Under the Long-Term Lease Agreement in Relation to the TICC FOC for FTTx for Additional Investment No. 2, TICC grants the Fund a call option to purchase the TICC FOC for FTTx for Additional Investment No. 2 at the exercise price of THB 200 million, exercisable upon the expiry date of the long-term lease and subject to fulfillment of certain conditions in the said agreement. The Fund can provide no assurances that it will be presented with the opportunity to exercise the call option to purchase the TICC FOC for FTTx for Additional Investment No. 2 because such ability to exercise this call option is subject to certain conditions, the realization of which cannot be guaranteed.

(5) Description and Coverage of the Upcountry Broadband System

In addition to the core FOC grid, we acquired from TICC an upcountry broadband system in the upcountry region of Thailand outside the BMA. Our upcountry broadband system enables TICC as our anchor tenant to offer its corporate and retail customers a complete range of access services to satisfy their needs for voice, data, image and video transmission via a wide range of technologies, including, among others, MPLS, DOCSIS, xDSL, Wifi, digital data networks and FTTx.

Our upcountry broadband system is composed of various active and passive infrastructure, including, among others, last mile access, and has a capacity of approximately 1.2 million ports for consumer broadband. The last mile access includes segments of FOC, coaxial cable and copper cable and totals approximately 20,750 km in overall length. FOC accounts for 6,114 km of the overall length of the last mile access and comprises 234,455 core km in total.

(6) Description and Coverage of the BFKT FOC Transmission Grid

We acquired from BFKT the right to the net revenues (including all claims, awards, judgments, suits and any other rights of BFKT arising out of or in connection with such revenues and any agreement under which such revenues would be derived (except for BFKT's rights and claims with respect to such revenues or arising out of or in connection with such agreements which BFKT is or has been entitled to prior to the Commencement Date regardless of whether BFKT makes or has made a claim or receives payment from such rights and claims before or after the Commencement Date)) to be generated on and from the Commencement Date until the Expiry Date from the rental of

the BFKT FOC Transmission Grid for a period of 12 years. BFKT currently leases to and operates for CAT Telecom the transmission grid, which provides backhaul from telecommunications towers to support CAT Telecom's 3G HSPA 850 MHz network. The BFKT FOC Transmission Grid is comprised primarily of G.652 cable with 12 to 60 cores capable of carrying signals in multiples of up to 1-10Gb/s. It includes approximately 47,250 km of fiber. The average age of the cables is approximately two years, and it has an expected life span of approximately 50 years. Similar to the core FOC grid acquired from TICC, a majority of the BFKT FOC Transmission Grid is aerial, allowing for easy access and maintenance, as well as rapid construction and deployment of new cable. Some of the cable has been laid in ducts at road crossing and other locations to provide added protection.

BFKT uses and maintains the entire BFKT FOC Transmission Grid and provides transmission rental and operation and maintenance services, on an exclusive basis, to CAT Telecom under the HSPA Leasing Agreement. BFKT transfers the net revenues generated from such rental to us in accordance with the terms and procedures provided in the Asset and Revenue Sale and Transfer Agreement. The Fund is not entitled to any revenues generated from the operation and maintenance services performed on the BFKT FOC Transmission Grid. See "Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets – Asset and Revenue Sale and Transfer Agreements in relation to the Initial Telecom Infrastructure Assets - BFKT Asset and Revenue Sale and Transfer Agreement" for further details of the arrangement between the Fund, BFKT and CAT Telecom.

Under the relevant Asset and Revenue Sale and Transfer Agreement, BFKT grants us a call option to purchase the BFKT FOC Transmission Grid and 1,435 of the BFKT Towers for THB 10 million, exercisable upon the occurrence of certain events. See "Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets - Asset and Revenue Sale and Transfer Agreements - Asset and Revenue Sale and Transfer Agreement dated December 24, 2013 between BFKT and the Fund –" and "Investment Policy - the Initial Telecom Infrastructure Assets" for further details on the call option. Because the call option to purchase the BFKT FOC Transmission Grid is contingent upon the occurrence of certain events that may not occur, we can provide no assurances that we will be presented with the opportunity to exercise the call option to purchase the BFKT FOC Transmission Grid.

(7) Dark Fiber Capacity

Under the Master Lease, Operation and Management Agreement with TICC and the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1 with TICC, we lease to TICC as the anchor tenant part of the dark fiber on the core FOC grid and the AWC FOC for Additional Investment No. 1. The remaining dark fiber in (i) the core grid, initially 49,415 core km, or approximately 40 percent, and scheduled to decrease during the term of the Master Lease, Operation and Management Agreement as TICC's reserved utilization increases and (ii) the AWC FOC for Additional Investment No. 1, approximately 106,213 core kilometres, or approximately 35 percent of the AWC FOC for Additional Investment No. 1, and scheduled to decrease during the term of the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1 as TICC's reserved utilisation increases, is available to third-party mobile operators, cable operators and data and voice service providers that choose to install their own transmission equipment and lease dark fiber capacity from us, subject to TICC's rights of first refusal and without infringing TICC's reserved utilization. With respect to the FOC for Telecom Infrastructure Assets for Additional Investment No. 2, the remaining dark fiber capacity following the lease by TUC and TICC will account for approximately

20 percent of total capacity. TICC, and following the lease of parts of the FOC for Additional Investment No. 2, TUC may purchase and install additional transmission equipment and, if we acquire such assets pursuant to our right of first refusal, we may be able to lease capacity to potential third-party tenants that do not wish to invest in transmission equipment. Depending on the additional transmission equipment that we may acquire from TICC and any upgrades of such equipment, the capacity on the existing dark fiber available for leasing to new tenants could be greatly expanded.

Both the passive and active telecommunications infrastructure in the upcountry broadband system, as well as the transmission equipment in the core FOC grid, will not be available to third-party mobile operators for at least five years since the Fund inception. The BFKT FOC Transmission Grid is not available for leasing to third-party tenants due to CAT Telecom's exclusive right to use it under the HSPA Leasing Agreement and may not be available for co-location leasing following the expiration of the HSPA Leasing Agreement and our exercise of the call option to purchase the BFKT FOC Transmission Grid because of limitations imposed by contractual arrangements in relation to the BFKT FOC Transmission Grid.

(8) FOC and Broadband Expansion

The Transferring Entities have granted us a right to receive a first offer to purchase any additional FOC, transmission equipment or upcountry broadband system infrastructure if True Group determines to sell such assets to third parties. We expect that as TICC and other members of True Group seek to expand further their network and broaden their customer bases, they may lay or otherwise seek to procure additional FOC, transmission equipment and upcountry broadband system infrastructure, and therefore present us with commercially attractive investment opportunities to us as we may receive greater returns from leasing our assets.

If we decide to purchase additional FOC, transmission equipment or upcountry broadband system infrastructure, we will likely require additional funds to do so, in which case we will be subject to the procedures with respect to borrowing as set out in “the Borrowing Policy” and/or those with respect to the increase of capital set out in “Increase of Capital,” and in certain circumstances we may need to amend the Fund Scheme. We can provide no assurances that we will be presented with opportunities in the future to exercise our right to receive a first offer to purchase additional FOC, transmission equipment or upcountry broadband system infrastructure.

Any plans to invest in additional FOC or broadband infrastructure are expected in the following primary areas:

- underserved upcountry regions of Thailand with significant growth potential;
- adding resilience to existing high traffic routes; and
- all major urban areas of Thailand.

(9) Right of Way and Equipment Accommodation

Substantially all of the core FOC grid and last mile and access in the upcountry broadband system that we acquired from TICC and the AWC FOC for Additional Investment No. 1 that the Fund leased from AWC is, and, following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, the FOC for Additional Investment No. 2 acquired from TUC, True Move and TICC, will be laid pursuant to contractual rights of way granted by the Public Utilities Authorities in the name of TICC and TUC. The BFKT FOC Transmission Grid is laid pursuant to contractual rights of way held by CAT Telecom. Most of the upcountry broadband system equipment and the core FOC

transmission equipment is located in accommodations leased or owned by True Group entities, including TICC. Pursuant to the Asset and Revenue Sale and Transfer Agreements, TICC grants or procures the Fund and its tenants the right to use and access the rights of way it or other True Group entities holds in respect of the core FOC grid. Upon the Fund's exercise of the call option to purchase the AWC FOC for Additional Investment No. 1, the Fund will have the right to use and access the rights of way that TICC or other True Group entities hold in respect of the AWC FOC for Additional Investment No. 1 pursuant to the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1. Pursuant to the relevant Amended and Restated Existing Lease Agreements, TICC and TUC grant or procure the Fund and its tenants the right to use and access the right of way they or other True Group entities holds in respect of the FOC for Additional Investment No. 2. Upon the Fund's exercise of the call option to purchase the TICC FOC for FTTx for Additional Investment No. 2 the Fund will have the right to use and access the rights of way that TICC or other True Group entities hold in respect of the TICC FOC for FTTx for Additional Investment No. 2 pursuant to the relevant Amended and Restated Existing Lease Agreements. The rights of way pursuant to which the BFKT FOC Transmission Grid has been laid remain in CAT Telecom's name, and, if we exercise the call option to purchase the BFKT FOC Transmission Grid, the Telecom Asset Manager may in the future procure, or arrange to procure, the right to use and access the rights of way for the Fund or the tenants of the Fund. The PEA has issued a letter to True Group confirming that all such segments are in compliance with applicable rules and regulations and issues invoices to True Group for expenses and costs in relation to the use of the rights of way. With respect to the FOCs for Telecom Infrastructure Assets for Additional Investment No. 2, the right of way will be granted by way of juristic acts of, or contracts with, public utility agencies in the name of TUC (in respect of FOC), and TICC (in respect of Core FOC and FOC for FTTx). Certain FOCs in which the Fund will invest are under the process for the relevant public utility agencies of issuing relevant documents in relation to the right of way which is standard in the FOC industry.

(10) Operation and Maintenance

Under the Asset and Revenue Sale and Transfer Agreements and Master Lease, Operation and Management Agreements, BFKT and TICC are responsible for operating and maintaining the BFKT FOC Transmission Grid and core FOC grid and upcountry broadband system, respectively. Additionally, TICC is responsible for operating and maintaining the AWC FOC for Additional Investment No. 1 under the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1. Following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, TUC, as the tenant, will be responsible for operation and maintenance of the TUC FOC for Additional Investment No. 2 and True Move Core FOC for Additional Investment No. 2 to be additionally invested in by the Fund. TICC, as the tenant, will be responsible for operation and maintenance of the FOC for FTTx to be additionally invested in by the Fund. TUC and TICC will be required to meet certain standards specified in the lease agreements; these activities include providing real-time monitoring of the grids and systems at BFKT's and TICC's operating centers in Bangkok. These facilities are manned 24 hours a day, seven days a week. In addition, BFKT's and TICC's critical information technology systems are designed to allow them to monitor the performance of the transmission equipment on a real-time basis in order to enable it to respond quickly to technical issues. TICC and TUC, as anchor tenants, are required to meet certain standards specified in the Master Lease, Operation and Management Agreements, the FOC Sub-Lease, Operation and Management Agreement for Additional Investment No. 1, and, following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, the Amended and Restated Existing Lease Agreements which we believe ensure that our core FOC grid, upcountry broadband system and FOC are properly operated and maintained. We also entered into a Master Services Agreement with Telecom Asset Management Company Limited as the Telecom Asset Manager, under which the Telecom Asset Manager provides certain administrative and other services for us. For further details,

see “Agreements Relating to the Management or Utilization of the Infrastructure Business - Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets — Master Services Agreement” and “Agreements Relating to the Management or Utilization of the Infrastructure Business—Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets, Summary of key terms of the agreements for acquisition of the Telecom Infrastructure Assets for Additional Investment No. 1 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 1, Summary of key terms of the agreements for acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2 and the agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2 – Master Lease, Operation and Management Agreements, Agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 1 and Agreements related to the seeking of benefits from the Telecom Infrastructure Assets for Additional Investment No. 2 .”

(11) Sales and Marketing

The Telecom Asset Manager is responsible for the sales and marketing of the core FOC grid and the AWC FOC for Additional Investment No. 1 and, following the termination of exclusivity, the upcountry broadband system. Following the acquisition of the Telecom Infrastructure Assets for Additional Investment No. 2, the Telecom Asset Manager will be responsible for the sales and marketing of the FOC for Additional Investment No. 2.

(12) Insurance

The Fund has maintained for the Telecom Infrastructure Assets, and will take out for the Telecom Infrastructure Assets for Additional Investment No. 2, insurance coverage that covers business interruption, property damage and public liability except for (i) the active equipment that the insurance coverage does not cover, in which case, the Management Company believes is standard in the industry and (ii) the assets under the Asset and Revenue Sale and Transfer Agreements which have been covered by the business interruption and public liability insurances only. The Fund will arrange for the property damage insurance for the assets under the Asset and Revenue Sale and Transfer Agreements once those assets are transferred to the Fund.

(13) Competition

The major telecommunications service providers in Thailand, including AIS, TRUE, DTAC, CAT Telecom and TOT, have their own FOC grids. Wholesale-only FOC operators such as PEA and the Electrical Generating Authority of Thailand also lease dark fiber capacity on their FOC grids. Operators in the upcountry broadband system sphere include TOT, CAT Telecom, United Information Highway and United Broadband Technology Co. Ltd., Advanced Datnetwork Communications Co. Ltd. and Jasmine International Public Company Limited. Symphony Communication Public Company Limited is also a major competitor in the FOC grid and broadband system industries.

2.5 Management and Utilization of Assets and Income Guarantee

Since the Telecom Infrastructure Assets will be managed on a day-to-day basis by the anchor tenants under the Master Lease, Operation and Management Agreements and the FOC Sub-Lease Operation and Management Agreement for Additional Investment No.1 or, in relation to the BFKT Telecom Assets, AWC Towers, and AWC Tower for Additional Investment No.1, under the HSPA Leasing Agreement or, in relation to the Telecom Infrastructure Assets for Additional Investment No.2, under the Amendment Agreements to the Existing Lease Agreements, or, in relation to the AWC Towers for Additional Investment No.2, under the HSPA Leasing Agreement, there is no need for the Fund to engage a third-party operator to run or operate the Telecom Infrastructure Assets. The Fund, however, has engaged the Telecom Asset Manager to provide certain administrative services and sales and marketing in connection with the Telecom Infrastructure Assets, and, as the case may be, the Telecom Infrastructure Assets for Additional Investment No.2. After the investment in the Telecom Infrastructure Assets for Additional Investment No.2, the Fund will assume risks relating to the Telecom Infrastructure Assets for Additional Investment No.2. There is no income guarantee relating to the Telecom Infrastructure Assets for Additional Investment No.2.

However, if there is an investment in Additional Assets falling under paragraphs (a) or (b) of the definition of Infrastructure Assets, the Fund will be required either to lease such assets to a third party for operation or to engage a third party to operate such Infrastructure Businesses. This is due to the restriction in Thor Nor. 1/2554 which prohibits infrastructure funds from operating Infrastructure Businesses. In such case, the Management Company shall comply with the requirements as set out in "Agreements relating to the management or utilization of the Infrastructure Businesses."

2.6 Agreements Relating to the Management or Utilization of the Infrastructure Business

2.6.1 Summary of key terms of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the seeking of benefits from the Initial Telecom Infrastructure Assets

The Fund has entered into the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the utilization from the Initial Telecom Infrastructure Assets as referred into in this Section 2.6.1 and any other documents necessary for the completion of the investment in the Initial Telecom Infrastructure Assets and the utilization from such assets. The summary of the key terms and conditions of the agreements for acquisition of the Initial Telecom Infrastructure Assets and the agreements related to the utilization from the Initial Telecom Infrastructure Assets is as follows:

(a) Asset and Revenue Sale and Transfer Agreements

(1) *Asset and Revenue Sale and Transfer Agreement dated December 24, 2013 between BFKT and the Fund ("BFKT Asset and Revenue Sale and Transfer Agreement")*

Parties	BFKT as seller; and the Fund as purchaser.

- (b) the rental of up to 50 telecommunications towers of BFKT from the date following the earlier of the Expiry Date and the date on which the HSPA Leasing Agreement is terminated prior to its term or extended term (the “**HSPA Termination Date**”), until the 10th anniversary of such date,

in each case less certain costs and expenses for operation and maintenance, rental payments under land leases (including property tax) insurance premiums and costs associated with securing rights of way (the “**BFKT Relevant Costs**”), provided that the BFKT Relevant Costs will be subject to applicable annual escalation, (collectively, the “**BFKT Sale Revenue**”).

Purchase Price

THB 15,556,563,792 (the “**BFKT Purchase Price**”).

Call Option of the Fund

BFKT irrevocably granted to the Fund the option to purchase certain BFKT Telecom Assets (the “BFKT Main Specified Assets”) at THB 10 million (the “Option Price”) exercisable upon the earlier of the Expiry Date and the HSPA Termination Date (the “**Option**”).

The BFKT Main Specified Assets consisted of, as of the date of the BFKT Asset and Revenue Sale and Transfer Agreement:

- 1,435 telecommunications towers; and
- 9,169 links of FOC grid and transmission equipment comprising 47,250 km of FOC.

Upon the Fund exercising the Option and making payment of the Option Price, if there are any BFKT Main Specified Assets that cannot be transferred and delivered to the Fund on the closing of the transfer of the BFKT Main Specified Assets (the “**BFKT Main Specified Asset Closing Date**”), BFKT shall pay to the Fund the terminal value of such BFKT Main Specified Assets. Upon the payment of such terminal value in full, BFKT shall be relieved from its obligation to deliver and transfer the relevant BFKT Main Specified Assets to the Fund.

The BFKT Monthly Rental Revenue in respect of the BFKT Remaining Specified Assets shall be delivered to the Fund

Trigger Events and Consequences

within 60 days from the end of the relevant month.

Prior to the BFKT Main Specified Asset Closing Date, if a trigger event as specified in the BFKT Asset and Revenue Sale and Transfer Agreement occurs, the Fund may demand BFKT to make payment of the net present value of all remaining BFKT Sale Revenue owed under the BFKT Asset and Revenue Sale and Transfer Agreement plus the BFKT Terminal Value of the BFKT Main Specified Assets (the **“BFKT Outstanding Sale Revenue”**) and exercise or enforce all or any part of the rights of the Fund available under the BFKT Asset and Revenue Sale and Transfer Agreement.

The trigger events include, among others, non-payment by BFKT of the BFKT Monthly Rental Revenues for three consecutive months, non-payment by BFKT of the BFKT Monthly Rental Revenues for two consecutive months if the Net Interest Bearing Debt to EBITDA ratio exceeds 5:1, BFKT's failure to perform certain obligations specified in the BFKT Asset and Revenue Sale and Transfer Agreement and such failure remains uncured within a specified period, BFKT's default on financial indebtedness in an aggregate principal amount exceeding THB 1.0 billion, insolvency or creditors' proceedings being initiated against BFKT and termination or default under the HSPA Leasing Agreement under certain circumstances described in the BFKT Asset and Revenue Sale and Transfer Agreement.

If the non-payment by BFKT of the BFKT Monthly Rental Revenue for three consecutive months or two consecutive months in case of failure to maintain the agreed financial ratio, is caused by CAT Telecom's failure to pay its rental payments under the HSPA Leasing Agreement and such failure is not caused by Real Move's breach of its obligation under the HSPA Wholesale Agreement, the Fund shall not be entitled to call a trigger event and demand BFKT to pay to the Fund the BFKT Outstanding Sale Revenue. Additionally, CAT Telecom's exercise of its options to purchase the BFKT Telecom Assets pursuant to the HSPA Leasing Agreement (the **“CAT Telecom's Option”**) does not constitute a trigger event.

Other Key Obligations of BFKT

From the relevant closing of the transfer of the BFKT Main Specified Assets or BFKT Remaining Specified Assets (the **“BFKT Asset Closing Date”**), BFKT shall at its own expense:

in relation to any land and/or property leases for any sites which cannot be assigned or novated to the Fund, procure that each of the Fund, the lessees of the BFKT Main Specified Assets or BFKT Remaining Specified Assets, the

Telecom Asset Manager and their designated persons has the right to access and to use the relevant sites;

in relation to any right of way, the parties agree that Telecom Asset Manager shall, at the cost of the Fund, procure that each of the Fund, the lessees of the BFKT Main Specified Assets and their designated persons has the right to access and to use the relevant right of way with respect to such assets pursuant to the Master Services Agreement;

in relation to any contracts with respect to the BFKT Main Specified Assets or the BFKT Remaining Specified Assets which cannot be assigned or novated to the Fund, procure that the Fund can enjoy the rights and benefits of BFKT under such contracts;

for a period of nine months following each BFKT Asset Closing Date:

- (a) give to the Fund such information and assistance as it may reasonably require relating to the relevant BFKT Main Specified Assets or the BFKT Remaining Specified Assets which have been delivered and transferred to the Fund (the “**BFKT Transferred Specified Assets**”); and
- (b) use reasonable endeavors to provide the Fund with such assistance and services as the Fund may reasonably require (at the cost of BFKT) to enable the BFKT Transferred Specified Assets to be used in all material respects in the same manner in which they were used immediately prior to its relevant BFKT Asset Closing Date; and
- (c) retain the documents relating to the BFKT Transferred Specified Assets and shall allow the Fund reasonable access to such documents.

From the relevant BFKT Asset Closing Date, if, as a result of (A) a site or part thereof which has been assigned or novated to the Fund, in relation to any BFKT Transferred Specified Asset being seized, taken into custody or otherwise rendered unusable by any tenant due to any illegality to access or to use such site or any part thereof which is not attributable to the Fund or any tenant of such BFKT Transferred Specified Asset that is not a True Group entity, (B) prior to the leases being assigned or novated to the Fund, the validity, legality or any right to use a site pursuant to any lease for any BFKT Transferred Specified Asset being challenged which is not attributable to the Fund or any tenant of such BFKT Transferred Specified Asset that is not a True Group entity, or (C) BFKT fails to procure the access to and use of the relevant sites to the Fund, the tenants, the Telecom Asset

Manager or their designated persons (the “**BFKT Affected Site**”), any tenant or the Fund is unable to access, operate and/or use the BFKT Transferred Specified Assets, then BFKT shall, at its own costs and expenses:

- procure or obtain a new site that both the parties agree would be substantially equivalent to the BFKT Affected Site (both parties acting reasonably) having regard to:
 - (a) its location;
 - (b) the tenants’ network coverage that would be available from the new site; and
 - (c) the capacity and space available to install the BFKT Transferred Specified Assets and other tenants’ telecommunications equipment at the new site; and
- relocate the BFKT Transferred Specified Assets which are located on the Affected Site or procure new equipment and assets having at least the same quality, specifications and capacity as the BFKT Transferred Specified Assets to be installed on the new site and shall ensure that the capacity, performance and space availability of the BFKT Transferred Specified Assets or the new equipment and assets, which are relocated and installed on the new site remain the same as they were located on the Affected Site prior to such site becoming the BFKT Affected Site.

In case that BFKT fails to relocate the BFKT Transferred Specified Assets or procure the new assets and such failure has not been remedied to the Fund’s reasonable satisfaction within the period specified in the BFKT Asset and Revenue Sale and Transfer Agreement, BFKT shall:

- purchase and/or procure the purchase of the relevant BFKT Transferred Specified Assets which are located or installed on the BFKT Affected Site (the “**BFKT Affected Assets**”) at the price equal to (i) the BFKT Terminal Value for such BFKT Affected Assets that are BFKT Main Specified Assets; or (ii) the BFKT Remaining Specified Asset Purchase Price for the BFKT Affected Assets that are BFKT Remaining Specified Asset, as the case may be (each, the “**BFKT Affected Asset Purchase Price**”), plus interest at 7.5 percent per annum from the relevant BFKT Asset Closing Date, to and including the date on which BFKT pays the BFKT Affected Asset Purchase Price to the Fund;
- pay the Fund all costs and expenses in connection with the sale and transfer of the BFKT Affected Assets and all lease and rental payments of the BFKT Affected Assets that the tenants of such BFKT Affected Assets do not

pay the Fund due to such tenants being unable to use the BFKT Affected Assets up to the date on which BFKT pays the Fund the BFKT Affected Asset Purchase Price; and

- pay the Fund all costs, expenses, damages, losses, claims and liabilities incurred or to be incurred by the Fund arising out of or resulting from the use of the BFKT Affected Site, the leases and the relocation of the BFKT Affected Assets and the tenants' claims against the Fund due to the tenants being unable to use the BFKT Affected Assets.

Subject to BFKT's compliance with its obligations in relation to the repurchase of the BFKT Affected Assets as described above, the Fund shall pay BFKT the full amount of the relevant rental payments in relation to the BFKT Affected Assets that the Fund has received from the relevant tenants that are True Group entities pursuant to the relevant lease agreements between such entities and the Fund plus interest at 7.5 percent per annum from the date on which the Fund received each rental payment from the relevant tenants that are True Group entities pursuant to the relevant lease agreements between such entities and the Fund to and including the date on which the Fund pays such rental payments to BFKT, provided that such amount shall not exceed the BFKT Affected Asset Purchase Price.

The obligation of BFKT in relation to the relocation and repurchase of the BFKT Affected Assets on the site which has been assigned or novated to the Fund, in relation to any BFKT Transferred Specified Asset being seized, taken into custody or otherwise rendered unusable by any tenant due to any illegality to access or to use such site or any part thereof shall be limited to five years after the date of the assignment or novation of such site to the Fund.

If CAT Telecom exercises its right under the CAT Telecom's Option to purchase any BFKT Telecom Asset (an "**Option Asset**"), BFKT shall:

- continue to pay the BFKT Sale Revenue in accordance with the BFKT Asset and Revenue Sale and Transfer Agreement;
- procure a new asset having at least the same quality, specifications and capacity as such Option Asset and deliver and transfer such new asset that replaces the BFKT Main Specified Asset to the Fund on the BFKT Main Specified Asset Closing Date; and
- if BFKT cannot procure a new asset for the Option Asset which is the BFKT Main Specified Asset, pay the Fund

the BFKT Terminal Value of such Option Asset in full on the BFKT Main Specified Asset Closing Date.

If CAT Telecom fails to pay BFKT the rental payments under the HSPA Leasing Agreement or the HSPA Leasing Agreement is terminated due to a default of CAT Telecom, upon the Fund's request, BFKT shall use its best endeavors to pursue any legally permissible and valid claims against CAT Telecom. The Fund agrees to be responsible for any costs and expenses incurred in connection with such claim. Upon BFKT's receipt of any damages award or compensation from CAT Telecom, BFKT shall pay such compensation or amounts paid by CAT Telecom to the Fund in accordance with the terms and conditions set out in the BFKT Asset and Revenue Sale and Transfer Agreement. BFKT shall have the right to deduct any costs and expenses incurred in connection with such claim from the compensation or amounts paid by CAT Telecom before paying such amount to the Fund in case the Fund has not paid such costs and expenses to BFKT.

Right of First Offer of the Fund

From the BFKT Revenue Closing Date, BFKT irrevocably grants the Fund a right of first offer to purchase rights, benefits, interest and/or investment in relation to telecommunications infrastructure assets of BFKT or any other True Group entity (other than the BFKT Telecom Assets and certain other assets) which the Fund can invest in pursuant to the laws and regulations of the Thai SEC (the "**BFKT Additional Assets**") until the earliest of (i) the fifth anniversary of the BFKT Revenue Closing Date; (ii) the date on which True, which is an entity subscribing to units issued by the Fund under the Initial Public Offering, holds less than 18 percent of total units issued by the Fund under the Initial Public Offering; and (iii) the date on which any telecommunications operator holds more units issued by the Fund than True holds, in accordance with the following terms and conditions:

Prior to the AWC Main Specified Asset Closing Date, if a trigger event as specified in the AWC Asset and Revenue Sale and Transfer Agreement occurs, the Fund may demand AWC to make payment of the net present value of all remaining AWC Rental Revenue owed plus the AWC Terminal Value of the AWC Main Specified Assets (the “**AWC Outstanding Sale Revenue**”) and exercise or enforce all or any part of the rights of the Fund available under the AWC Asset and Revenue Sale and Transfer Agreement.

The trigger events include, among others, non-payment by AWC of the AWC Monthly Rental Revenues for three consecutive months, non-payment by AWC of the AWC Monthly Rental Revenues for two consecutive months if the Net Interest Bearing Debt to EBITDA ratio exceeds 5:1, AWC’s failure to perform certain obligations specified in the AWC Asset and Revenue Sale and Transfer Agreement and such failure remains uncured within a specified period, AWC’s default on financial indebtedness in an aggregate principal amount exceeding THB 1.0 billion, insolvency or creditors’ proceedings being initiated against AWC and termination or default under the AWC Leasing Agreement under certain circumstances described in the AWC Asset and Revenue Sale and Transfer Agreement.

If the non-payment by AWC of the AWC Monthly Rental Revenue for three consecutive months, or for two consecutive months in case of a failure to maintain the agreed financial ratio, is caused by BFKT’s failure to pay the applicable AWC Sale Revenue in relation to the AWC Leasing Agreement as a result of a default by CAT Telecom of its obligation to pay its rental payments to BFKT under the HSPA Leasing Agreement and such default by CAT Telecom is not caused by a breach by Real Move of its obligation under the HSPA Wholesale Agreement, then the Fund will not be entitled to call a trigger event and demand AWC to pay to the Fund the AWC Outstanding Sale Revenue.

Other Key Obligations of AWC

From the relevant closing of the transfer of the AWC Main Specified Asset or AWC Remaining Specified Asset (the “**AWC Asset Closing Date**”), AWC shall at its own expense:

in relation to any land and/or property leases which cannot

be assigned or novated to the Fund, procure that each of the Fund, the lessees of the AWC Main Specified Assets or AWC Remaining Specified Assets, the Telecom Asset Manager and their designated persons has the right to access and to use the relevant sites;

in relation to any contracts with respect to the AWC Main Specified Assets or AWC Remaining Specified Assets which cannot be assigned or novated to the Fund, procure that the Fund can enjoy the rights and benefits of AWC under such contracts;

for a period of nine months following each AWC Asset Closing Date:

- (a) give to the Fund such information and assistance as it may reasonably require relating to the relevant AWC Main Specified Assets or AWC Remaining Specified Assets which have been delivered and transferred to the Fund (the "AWC Transferred Specified Assets"); and
- (b) use reasonable endeavors to provide the Fund with such assistance and services as the Fund may reasonably require (at the cost of AWC) to enable the AWC Transferred Specified Assets to be used in all material respects in the same manner in which they were used immediately prior to its relevant AWC Asset Closing Date; and
- (c) retain the documents relating to the AWC Transferred Specified Assets and shall allow the Fund reasonable access to such documents.

From the relevant AWC Asset Closing Date, if, as a result of (A) a site or part thereof, which has been assigned or novated to the Fund, in relation to any AWC Transferred Specified Asset being seized, taken into custody or otherwise rendered unusable by any tenant due to any illegality to access or to use such site or any part thereof which is not attributable to the Fund or any tenant of such Transferred Specified Asset which is not a True Group entity, (B) prior to the leases being assigned or novated to the Fund, the validity, legality or any right to use a site pursuant to any lease for any AWC Transferred Specified Asset being challenged which is not attributable to the Fund or any tenant of such Transferred Specified Asset which is not a True Group entity, or (C) AWC fails to procure the access to and use of the relevant sites by the Fund, the tenants, the Telecom Asset Manager or their designated persons (the "**AWC Affected Site**"), any tenant or the Fund is unable to access, operate and/or use the AWC Transferred Specified Assets, then AWC shall, at its own costs and expenses:

- procure or obtain a new site that both the parties agree would be substantially equivalent to the AWC Affected Site (both parties acting reasonably) having regard to:
 - (a) its location;
 - (b) the tenants' network coverage that would be available from the new site; and
 - (c) the capacity and space available to install the AWC Transferred Specified Assets and other tenants' telecommunications equipment at the new site; and
- relocate the AWC Transferred Specified Assets which are located on the AWC Affected Site or procure new equipment and assets having at least the same quality, specifications and capacity as the AWC Transferred Specified Assets to be installed on the new site and shall ensure that the capacity, performance and space availability of the AWC Transferred Specified Assets or the new equipment and assets, which are relocated and installed on the new site, remain the same as they were located on the AWC Affected Site prior to such site becoming the AWC Affected Site.

In case that AWC fails to relocate the AWC Transferred Specified Assets or procure the new assets and such failure has not been remedied to the Fund's reasonable satisfaction within the period specified in the AWC Asset and Revenue Sale and Transfer Agreement, AWC shall:

- purchase and/or procure the purchase of the relevant AWC Transferred Specified Assets which are located or installed on the AWC Affected Site (the "AWC Affected Assets") at the price equal to (i) the AWC Terminal Value for such AWC Affected Assets that are AWC Main Specified Assets; or (ii) the AWC Remaining Specified Asset Purchase Price for the AWC Affected Assets that are the AWC Remaining Specified Asset, as the case may be (each, the "AWC Affected Asset Purchase Price"), plus interest at 7.5 percent per annum from the relevant AWC Assets Closing Date to and including the date on which AWC pays the AWC Affected Asset Purchase Price to the Fund;
- pay the Fund all costs and expenses in connection with the sale and transfer of the AWC Affected Assets and all lease and rental payments of the AWC Affected Assets that the tenants of such AWC Affected Assets do not pay the Fund due to such tenants being unable to use the AWC Affected Assets up to the date on which AWC pays the Fund the AWC Affected Asset Purchase Price; and
- pay the Fund all costs, expenses, damages, losses,

claims and liabilities incurred or to be incurred by the Fund arising out of or resulting from the use of the AWC Affected Site, the leases and the relocation of the AWC Affected Assets and the tenants' claims against the Fund due to the tenants being unable to use the AWC Affected Assets.

Subject to AWC's compliance with its obligations in relation to the repurchase of the AWC Affected Assets as described above, the Fund shall pay AWC the full amount of the rental payments in relation to the AWC Affected Assets that the Fund received from the relevant tenants that are True Group entities pursuant to the relevant lease agreements between such entities and the Fund plus interest at 7.5 percent per annum from the date on which the Fund received each relevant rental payment from the relevant tenants that are True Group entities pursuant to the lease agreement between such entities and the Fund to and including the date on which the Fund pays such rental payments to AWC, provided that such amount shall not exceed the AWC Affected Asset Purchase Price.

The obligation of AWC in relation to the relocation and repurchase of the AWC Affected Assets which has been assigned or novated to the Fund, in relation to any AWC Transferred Specified Asset being seized, taken into custody or otherwise rendered unusable by any tenant due to any illegality to access or to use such site or any part thereof shall be limited to five years after the date of the assignment or novation of the such site to the Fund.

If CAT Telecom fails to pay BFKT the rental payments under the HSPA Leasing Agreement or the HSPA Leasing Agreement is terminated due to a default of CAT Telecom and BFKT fails to pay the rental payments under the AWC Leasing Agreement thereby resulting in AWC's failure to pay the Fund the AWC Sale Revenue which is not a trigger event under the AWC Asset and Revenue Sale and Transfer Agreement, upon the Fund's request, AWC shall use its best endeavors or shall procure that BFKT use its best endeavors to pursue any legally permissible and valid claim against CAT Telecom. The Fund agrees to be responsible for any costs and expenses in connection with such claim. Upon AWC's or BFKT's receipt of any damages award or compensation, AWC shall or shall procure that BFKT shall pay to the Fund the compensation or amounts paid by CAT Telecom in accordance with the terms and conditions set out in the AWC Asset and Revenue Sale and Transfer Agreement. AWC or BFKT, whoever is the person making the claim, shall have the right to deduct any costs and expenses incurred in connection with such claim from the compensation or

amounts paid by CAT Telecom before paying such amount to the Fund in case the Fund has not paid such costs and expenses to AWC or BFKT, as the case may be.

Trigger Events and Consequences

Prior to the AWC Asset Closing Date for Additional Investment No. 1, if a trigger event as specified in the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1 occurs, the Fund may demand AWC to make payment of the net present value of all remaining AWC Sale Revenue for Additional Investment No. 1 owed plus the AWC Terminal Value of the AWC Assets for Additional Investment No. 1 (collectively, the **“AWC Outstanding Sale Revenue for Additional Investment No. 1”**) and exercise or enforce all or any part of the rights of the Fund available under the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1.

The trigger events include, among others, non-payment by AWC of the AWC Monthly Rental Revenue for Additional Investment No. 1 for three consecutive months, non-payment by AWC of the AWC Monthly Rental Revenues for Additional Investment No. 1 for two consecutive months if the Net Interest Bearing Debt to EBITDA ratio exceeds 5:1, AWC's failure to perform certain obligations specified in the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1 and such failure remains uncured within a specified period, AWC's default on financial indebtedness in an aggregate

principal amount exceeding THB 1.0 billion, insolvency or creditors' proceedings being initiated against AWC and termination or default under the Additional AWC Leasing Agreement under certain circumstances described in the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1.

If the non-payment by AWC of the AWC Monthly Rental Revenue for Additional Investment No. 1 for three consecutive months, or for two consecutive months in case of a failure to maintain the agreed financial ratio, is caused by BFKT's failure to pay the applicable AWC Sale Revenue for Additional Investment No. 1 in relation to the Additional AWC Leasing Agreement as a result of a default by CAT Telecom of its obligation to pay its rental payments to BFKT under the HSPA Equipment Lease Agreement and such default by CAT Telecom is not caused by a breach by Real Move of its obligation under the HSPA Wholesale Agreement, then the Fund will not be entitled to call a trigger event and demand AWC to pay to the Fund the AWC Outstanding Sale Revenue for Additional Investment No. 1.

Other Key Obligations of AWC

From the relevant closing of the transfer of the AWC Assets for Additional Investment No. 1 (the "**AWC Assets for Additional Investment No. 1 Closing Date**"), AWC shall at its own expense:

- in relation to any land and/or property leases which cannot be assigned and/or novated to the Fund, procure that each of the Fund, tenants of the AWC Assets for Additional Investment No. 1, the Telecom Asset Manager and their designated persons has the right to access and to use the relevant sites;
- in relation to any contracts with respect to the AWC Assets for Additional Investment No. 1 which cannot be assigned and/or novated to the Fund, procure that the Fund can enjoy the rights and benefits of AWC under such contracts;
- for a period of nine months following the AWC Assets for Additional Investment No. 1 Closing Date, AWC shall, at its own expenses, undertake the following:
 - (a) give to the Fund such information and assistance as it may reasonably require relating to the relevant AWC Transferred Specified Assets; and
 - (b) use reasonable endeavours to provide the Fund with such facilities and services as the Fund may reasonably require (at the cost of AWC) to enable the AWC Transferred Specified Assets to be used

in all material respects in the same manner in which they were used immediately prior to its relevant AWC Asset for Additional Investment No. 1 Closing Date; and

- (c) retain the documents relating to the AWC Transferred Specified Assets and shall allow the Fund reasonable access to such documents.

From the AWC Assets for Additional Investment No. 1 Closing Date, if, as a result of (a) a site or part thereof, which has been assigned and/or novated to the Fund, in relation to any AWC Transferred Specified Asset being seized, taken into custody or otherwise rendered unsuitable for use by any tenant due to any illegality to access or to use such site or any part thereof which is not attributable to the Fund or any tenant of such Transferred Specified Asset which is not a True Group entity, (b) prior to the leases being assigned or novated to the Fund, the validity, legality or any right to use a site pursuant to any lease for any AWC Transferred Specified Asset being challenged which is not attributable to the Fund or any tenant of such Transferred Specified Asset which is not a True Group entity, or (c) AWC fails to procure the access to and use of the AWC Affected Site, thereby resulting in any tenant or the Fund being unable to access, operate and/or use the AWC Transferred Specified Assets, then AWC shall, at its own costs and expenses:

- procure or obtain a new site that both the parties agree would be substantially equivalent to the AWC Affected Site (both parties acting reasonably) having regard to:
 - (a) its location;
 - (b) the tenants' network coverage that would be available from the new site; and
 - (c) the capacity and space available to install the AWC Transferred Specified Assets and other tenants' telecommunications equipment at the new site; and
- relocate the AWC Transferred Specified Assets which are located on the AWC Affected Site or procure new equipment and assets having at least the same quality, specifications and capacity as the AWC Transferred Specified Assets to be installed on the new site and shall ensure that the capacity, performance and space availability of the AWC Transferred Specified Assets or the new equipment and assets, which are relocated and installed on the

new site, remain the same as they were located on the AWC Affected Site prior to such site becoming the AWC Affected Site.

In case that AWC fails to relocate the AWC Transferred Specified Assets or procure the new assets and such failure has not been remedied to the Fund's reasonable satisfaction within the period specified in the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1, AWC shall:

- purchase and/or procure the purchase of the AWC Affected Assets at the price equal to (i) the AWC Terminal Value for such AWC Affected Assets that are AWC Main Specified Assets; or (ii) the AWC Affected Asset Purchase Price, as the case may be, plus interest at 7.5 percent per annum from the relevant AWC Assets Closing Date to and including the date on which AWC pays the AWC Affected Asset Purchase Price to the Fund;
- pay the Fund all costs and expenses in connection with the sale and transfer of the AWC Affected Assets and all lease and rental payments of the AWC Affected Assets that the tenants of such AWC Affected Assets do not pay the Fund due to such tenants being unable to use the AWC Affected Assets up to the date on which AWC pays the Fund the AWC Affected Asset Purchase Price; and
- pay the Fund all costs, expenses, damages, losses, claims and liabilities incurred or to be incurred by the Fund arising out of or resulting from the use of the AWC Affected Site, the leases and the relocation of the AWC Affected Assets and the tenants' claims against the Fund due to the tenants being unable to use the AWC Affected Assets.

Subject to AWC's compliance with its obligations in relation to the repurchase of the AWC Affected Assets as described above, the Fund shall pay AWC the full amount of the rental payments in relation to the AWC Affected Assets that the Fund received from the relevant tenants that are True Group entities pursuant to the relevant lease agreements between such entities and the Fund plus interest at 7.5 percent per annum from the date on which the Fund received each relevant rental payment from the relevant tenants that are True Group entities pursuant to the lease agreement between such entities and the Fund to and including the date on which the Fund pays such rental payments to AWC, provided that such amount shall not exceed the AWC Affected Asset Purchase Price.

The obligation of AWC in relation to the relocation and repurchase of the AWC Affected Assets which has been assigned or novated to the Fund, in relation to any AWC Transferred Specified Asset being seized, taken into custody or otherwise rendered unusable by any tenant due to any illegality to access or to use such site or any part thereof shall be limited to five years after the date of the assignment or novation of the such site to the Fund.

If CAT Telecom fails to pay BFKT the rental payments under the HSPA Equipment Lease Agreement or the HSPA Equipment Lease Agreement is terminated due to a default of CAT Telecom and BFKT fails to pay the rental payments under the Additional AWC Leasing Agreement, thereby resulting in AWC's failure to pay the Fund the AWC Sale Revenue for Additional Investment No. 1 which is not a trigger event under the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1, upon the Fund's request, AWC shall use its best endeavors or shall procure that BFKT use its best endeavors to pursue any legally permissible and valid claim against CAT Telecom. The Fund agrees to be responsible for any costs and expenses in connection with such claim. Upon AWC's or BFKT's receipt of any damages award or compensation, AWC shall or shall procure that BFKT shall pay to the Fund the compensation or amounts paid by CAT Telecom in accordance with the terms and conditions set out in the AWC Asset and Revenue Sale and Transfer Agreement for Additional Investment No. 1. AWC or BFKT, whoever is the person making the claim, shall have the right to deduct any costs and expenses incurred in connection with such claim from the compensation or amounts paid by CAT Telecom before paying such amount to the Fund in case the Fund has not paid such costs and expenses to AWC or BFKT, as the case may be.

Right of First Offer of the Fund

From the AWC Revenue Closing Date for Additional Investment No. 1, AWC irrevocably grants the Fund a right of first offer to purchase rights, benefits, interest and/or investment in relation to AWC Additional Assets until the earliest of (a) the fifth anniversary of the AWC Revenue Closing Date for Additional Investment No. 1; (b) the date on which True, which is an entity subscribing to units issued by the Fund under the Initial Public Offering, holds less than 18 percent of total units issued by the Fund under the Initial Public Offering; and (c) the date on which any telecommunication operator holds more units issued by the Fund than True holds, in accordance with the following terms and conditions:

- (1) If the ROFO Seller wishes to sell any AWC Additional Assets to any third party, AWC shall and shall procure that such True Group entity shall, issue an Offer Notice to the Fund containing the details as described in the AWC Asset and Revenue Sale and Transfer Agreement, including among others, all material terms and conditions of the lease of such AWC Additional Assets (if any).

Within three months from the date of the Acceptance Notice, the Fund shall use its best endeavors to obtain the unitholders' approval which may be required for the purchase of the AWC Transferred Assets; and AWC shall and/or shall procure that the relevant True Group entity shall use their best endeavors to obtain all consents and approvals which may be required in accordance with applicable laws, regulations and contracts for the sale of the AWC Transferred Assets. - In respect of (a) any part of the AWC Transferred Assets, the liability of AWC shall not exceed the fair value of such part of the AWC Transferred Assets, whereas the parties agree that the fair value shall be the average price obtained from two appraisers approved by the SEC Office pursuant to the relevant notifications and appointed by each party to appraise the property or by other method as agreed by the

parties; (b) all other breaches occurring after the AWC Leased Property Closing Date, the aggregate liabilities of AWC shall not exceed 50 percent of the AWC Lease Value and the AWC Option Price of such assets. Trigger Events and Consequences

- If the non-payment by AWC of the AWC Monthly Rental Revenue for Additional Investment No. 2 for three consecutive months, or for two consecutive months in case of a failure to maintain the agreed financial ratio, is caused by BFKT's failure to pay the applicable AWC Sale Revenue for Additional Investment No. 2 in relation to the Additional AWC Leasing Agreement No. 2 as a result of a default by CAT Telecom of its obligation to pay its rental payments to BFKT under the HSPA Equipment Lease Agreement and such default by CAT Telecom is not caused by a breach by Real Move of its obligation under the HSPA Wholesale Agreement, then the Fund will not be entitled to call a trigger event and demand AWC to pay to the Fund the AWC Outstanding Sale Revenue for Additional Investment No. 2.

2.6.4 The Management or Utilization from any Infrastructure Business in the Future

If the Fund will in the future entry into, amend or terminate any agreement to manage or seek benefits from any Infrastructure Business, a resolution from the Unitholders will be required if such entry into, amendment or termination of any agreement related to the seeking of benefits from the Telecom Infrastructure Assets having the value of more than THB 100,000,000 or 30 percent or more of the Fund's total assets at the time of such entry into, amendment or termination of such agreement. Such Unitholders' resolution will not be required if such entry into, amendment or termination of such agreement has a value of more than THB 100,000,000 but less than 30 percent of the total assets at the time of such entry into, amendment or termination of such agreement and is approved by the Fund Supervisor, or such has been set out in the Fund Scheme. The calculation of such value shall include value of all transactions taking place during an interval of six months.

2.7 Policy and Dividend Distribution Method and Return of Invested Capital

Distributions to the Unitholders can be made from time to time by way of dividend payments and capital reduction as permitted under the Fund Scheme and the Securities Law.

2.7.1 Dividend Distribution Policy

DIF has a policy to pay dividend distributions to Unitholders at least twice a year if the Fund has sufficient earnings.

In order to comply with the Fund Scheme and the Securities Law, if the Fund has a net profit in a given year and does not have accumulated losses, it must pay, in aggregate, not less than 90 percent (or any other percentage as may be permitted by the Securities Law from time to time) of its adjusted net profit for the year as dividend distributions to Unitholders. The Management Company will calculate the adjusted net profit by deducting the following from the net profit of the Fund:

- (a) unrealized gain from the appraisal of the infrastructure assets of the Fund and other adjustment items in accordance with the guidelines of the Thai SEC, to be in line with the cash basis of the Fund;
- (b) capital reserve for the repair and improvement of the Infrastructure Business of the Fund, including the Telecom Infrastructure Assets, in accordance with the plans specified in the Fund Scheme and the Prospectus, as notified in advance by the Management Company to Unitholders from time to time or as approved by a resolution of the Unitholders;

- (c) capital reserve for repayment of any loan or commitment of the Fund according to the borrowing policy expressly specified in the Fund Scheme and Prospectus or notified in advance by the Management Company to Unitholders; and
- (d) capital reserve for payment of dividend distributions to every category of Unitholders who has the first priority over distributions of benefits or return of capital (if any).

In the event that the Fund has a non-cash expense, such as an expense that is gradually amortized or an unrealized loss, the Fund will create provisions for the items set out under (b) and (c) above in the amount not exceeding the amount prescribed under (b) and (c) above for each financial period less the non-cash expenses.

If the Fund has accumulated profits, it may pay dividend distributions to Unitholders out of such accumulated profits. However, the payment of distributions from either the aforementioned net profit in a given year or such accumulated profits can be made only when the Fund does not have accumulated losses.

The Fund must pay such distributions to Unitholders within 90 days from the end of the financial period when distribution payment is made, except where there is a necessary cause which prevents payment of interim distributions, in which case the Management Company must notify the Unitholders and the Thai SEC in writing accordingly.

If the value of interim distributions per Investment Unit to be paid is lower than or equal to THB 0.10, the Fund reserves the right not to pay distributions at that time and to bring such distributions forward for payment together with the payment of annual distribution, proceeding in accordance with the distribution payment criteria and procedure as specified.

If the criteria for distribution payments are otherwise amended, supplemented, announced, prescribed, instructed, approved and/or relaxed by the Thai SEC, and/or any other competent authority under Thai law, the Management Company must proceed accordingly. In such event, it shall be deemed that approval has been obtained from Unitholders and it will not be deemed to be an amendment to the Fund Scheme.

Payment of dividend distributions by the Fund may be subject to conditions or restrictions set out in financing agreements in relation to borrowing entered into by the Fund or entered into with lenders of the Fund.

2.7.2 Dividend Payment Method

The Management Company may cause the Fund to pay any declared dividend in THB within 90 days from the end of the relevant financial year, the relevant dividend period or, in the case of an interim dividend payment, within 90 days from the closing date of the registrar book for dividend payments. If the Management Company is not able to pay the dividend within such period, the Management Company shall so notify Unitholders and the Office of the SEC in writing.

The Management Company shall announce the payment of dividends, the registrar book closure date, and the rate of dividends by:

- (i) publishing in at least one daily newspaper;
- (ii) posting such announcement at every office or place of business of the Management Company; and
- (iii) sending a notice to (a) Unitholders whose names appear in the registrar book as at the registrar book closure date, (b) the Fund Supervisor and (c) the SET.

Only Unitholders whose names are recorded in the registrar book at the specified time (that is, the registrar book closure date) will be entitled to receive dividends.

The Management Company shall pay dividends into the bank accounts of Unitholders or by an account payee only cheque in accordance with the list of Unitholders and their addresses as appears in the registrar book.

In the case that any Unitholder does not exercise its rights to receive a dividend distribution within the statutory prescription period, the Management Company will not utilize such dividend for any purpose other than for the benefit of the Fund.

The Management Company is prohibited from paying dividends in the form of Investment Units to Unitholders.

2.7.3 Unitholders' Restrictions on Receiving Dividends

Subject to the Investment Unit holding restrictions, if any Unitholder, Persons within the Same Group or Foreign Investor holds Investment Units in excess of the limits permitted under “– Holding Restrictions,” the Management Company shall not make a dividend payment to such Unitholder, Persons within the Same Group or Foreign Investor with respect to the Investment Units held in excess of the permitted limits, unless the SEC allows otherwise.

Any Unitholder, Persons within the Same Group or Foreign Investor holding Investment Units in excess of the limits referred to in the preceding paragraph shall not be entitled to dividends with respect to such excess holdings. Dividends attributable to such Investment Units shall be allocated to the Government with the deemed consent and acknowledgment of all Unitholders and shall be segregated from the other assets of the Fund and shall not be counted in the calculation of the NAV, unless and until the Fund is dissolved.

The Management Company may pay dividends to any Unitholder, Persons within the Same Group or Foreign Investor who holds Investment Units in excess of the limit permitted under “– Holding Restrictions” in respect to the Investment Units held by such persons that do not exceed the limit.

Please also refer to the restrictions with respect to Unitholders' entitlement to distributions as set out in “Impact on Unitholders” in relation to such excess holdings.

The Management Company will proceed in accordance with the rules and procedures as set out above, subject to any amendment, change, announcement, order or approval by the SEC, the Office of the SEC, the CMSB or any other relevant authority. In such case the Management Company shall act in accordance with such amendment, change, announcement, order or approval, and Unitholders will have been deemed to have approved such action by the Management Company.

2.7.4 Return on Invested Capital

Unitholders will be entitled to receive their prorated share of the proceeds from any capital reduction in the event that the Fund has excess liquidity and reduces its registered capital, in addition to any dividends payable to them.

Such capital reduction shall be made in accordance with the procedures set out in “– Reduction of Capital.”

3 Borrowing Policy

3.1 Overview

The Fund will consider incurring debt in the future up to an appropriate level subject to terms that are deemed to be beneficial to the Fund. 3.2 Deduction of Expenses and Provisions for Repayment in Accordance with Facilities and/or Loan Agreements

In addition, the Fund will make provisions in accordance with the terms and conditions set out in any such facilities and/or loan agreements. The Fund will also make provisions for repayment of debt that will become due under the relevant facilities and/or loan agreements during the period prior to determining the payment of dividend distributions to the Unitholders.

Currently, it is required that the debt to equity ratio of the Fund shall not be higher than three to one (3:1), except for a breach of such ratio which is not a result of an additional borrowing or issuing of additional quasi-debt units. If the Fund invests in shares of its subsidiaries (if any), the calculation of its debt to equity ratio shall be calculated using the debt and equity of such subsidiaries on a consolidated basis. For this purpose, “subsidiary” shall have the meaning given to it in the notification regarding borrowings in the name of a mutual fund and creating encumbrances on the assets of an infrastructure fund.
